It has stood the test for over 16 years. Needs very little attention. Runs with very light wind. Never freezes in times of heavy snow and ice. Once oiled it will run a long time. Has won its merits and reputation in competition with many other wind mills.

FOUR NEW STATES.

South Dakota, North Dakota, Montana and Washington.

On February 22, 1889, the President signed the bill creating South Dakota, North Dakota, Montana and Washington states of the Union.

SOUTH DAKOTA.—The great Prairie State, to which the St. Paul, Minneapolis & Manitoba Railway has three main lines, reaching Ellendale, Aberdeen, Huron, Watertown, and Sioux Falls. Go to South Dakota via the St. Paul, Minneapolis & Manitoba Railway and pass through St. Paul and Minneapolis en route.

NORTH DAKOTA.—Where is grown the No. 1 Hard Scotch Fife Wheat, whose healthful climate nurtures the most vigorous and brainy civilization on earth; where single counties raise more wheat, oats and barley than entire states; the soil of whose fertile prairies is richer than that the valley of the Nile; where the Turtle Mountain, Missouri and Devils Lake land districts lure the homeseeker to secure a free home. Magnificent daily train service to Fargo, Grand Forks, Grafton, Devils Lake, Bottineau, and all other important points.

MONTANA, THE GOLDEN.—Treasures in her mines of precious metals, wealth in her 4,000,000 head of live stock, profit in her fertile fields, producing a larger yield of crops than any other state or territory, the richest country on earth per inhabitant, where prosperity is universal; which has the best paid labor in the world; a balmy winter climate, caused by warm winds from the Pacific. The St. Paul, Minneapolis & Manitoba Railway is the only railroad passing through a continuous agricultural country from St. Paul and Minneapolis to the Rocky Mountains. It runs through the Great Reservation of 18,000,000 acres of land, free to settlers in the Milk River Valley. Wood, water, and coal in abundance; no irrigation required, the only line passing through Great Falls, with its 1,000,000 horse-power cataracts; immense coal veins, and surrounding farming country of free land; through Helena, the capital city and commercial centre of Montana, and Butte, the richest mineral camp on earth, to San Francisco by the Columbia River Valley, Portland and Shasta Route, or Ogden, Utah, to California points. Remember this is the only line running dining and sleeping cars and free colonist sleepers into its own from St. Paul and Minneapolis to Great Falls, Helena and Butte. It is also the shortest line to Butte.

WASHINGTON.—The country of tall timber, indented by Puget Sound, the Mediterranean of the Pacific, reached only by the St. Paul, Minneapolis & Manitoba Railway is the only line which offers a choice of three routes to the Pacific Coast. The Manitoba-Pacific route is the only line by which passengers en route for Tacoma, Portland and San Francisco can pass through Port Townsend and Seattle. Free colonist sleepers run through without change or delay. Difference in the Pacific Coast is same as by other lines, but prices of tickets are five and ten dollars less. Take the Seattle route.
