Noah was the first man to advertise. He advertised the flood and the flood came accordin'. The fellows who poohpoohed the advertiser got drowned, every mother's son of 'em, and they're still drowned. Ever since Noah's time the man who advertises has prospered while the fellows who don't are ever in danger of being swallowed up in the deluge of failure. It pays to advertise. THE ECCENTRIC will show you how.

Oakland county has a new county drain commissioner in the person of James Butler of Addison. If Mr. Butler will take a "hunch" from Mr. Bixby's experience he will distribute his drain notices about the county and not give all the fat to one paper. Give the advertising to the paper in the neighborhood where the drain is located and Mr. Butler will please the majority of his constituency.

Home seekers with moderate means should take a trip up the Pontiac, Oxford & Northern railroad into the thumb of Michigan. Land in this part of the state is cheap and it is as good as ever laid out doors. You can buy wild land or improved farms at prices that are far below the actual value. About 15 families around Deford are known in this vicinity and it is a good place to locate. All stations on the P., O. & N. furnish good markets for your produce. Look the matter up if you are looking for cheap homes.

The lecturer was Mrs. Barker of Chicago, who is sent to us free of charge by the publishers of our drawing books. She is expected again in the middle of the year.

For the fall term the mornings of each week will be used as follows: Monday, devotional reading, music; Tuesday and Thursday, singing class under Miss McNair; Wednesday, current events, by selected members of the school; singing or a study period. AN INTERESTING STATEMENT.

Whitehead & Mitchell Say They Have at Last Discovered a Positive Cure for Dyspepsia.

"For years," said a member of the above drug firm yesterday, "we have been waiting for some one to discover a remedy that really will cure indigestion and dyspepsia.

A short time ago we learned that a new remedy called 'PEPSIKOLA' had been placed on the market, and on investigation we found that at last there is a remedy that surely will cure.

We laid in a big supply because we knew that as soon as the people began to realize what a remarkable remedy PEPSIKOLA is, there would be a big demand for it, and it is selling even beyond our expectations."

But Correct

Thousands Have Kidney Trouble and Don't Know it.

How To Find Out.

Fill a bottle or common glass with your water and let it stand twenty-four hours; a sediment or settling indicates an unhealthy condition of the kidneys; if it stains your linen it is evidence of kidney trouble: too frequent desire to pass it or pain in the back is also convincing proof that the kidneys and bladder are out of order.

What to Do.

There is comfort in the knowledge so often expressed, that Dr. Kilmer's Swamp-Root, the great kidney remedy fulfills every wish in curing rheumatism, pain in the back, kidneys, liver, bladder and every part of the urinary passage. It corrects inability to hold water and scalding pain in passing it, or bad effects following use of liquor, wine or beer, and overcomes that unpleasant necessity of being compelled to go often during the day, and to get up many times during the night. The mild and the extraordinary effect of **Swamp-Root** is soon realized. It stands the highest for its wonderful cures of the most distressing cases. If you need a medicine you should have the best. Sold by druggists in 50c. and $1. sizes.

You may have a sample bottle of this wonderful discovery and a book that tells more about it, both sent absolutely free by mail, address Dr. Kilmer & Co., Binghamton, N.Y. When writing mention reading this generous offer in this paper.
