The Epidemic of Crime

Whence comes this epidemic of suicides and murders? Recent discussions have named several causes. Hon. C. H. Reere, of Indiana, charges it to infidel teachings—holding that hopelessness of a future state cripples fortitude for bearing life's ills. Another declares suffering from the universal business depression the cause. A third writer attributes it to increasing insanity, a physician thinks much of the tendency is inherited, while temperance advocates lay the responsibility upon strong drink.

Free thinkers have committed suicide, but so have orthodox churchmen. Financial straits have beset many, but the wealthy have also taken their life.

Insanity and dissipation have preceded suicides and family murders.

One fashionable cause is almost every such crime challenges attention. Well nigh every report of suicide and family murder mentions the perpetrator as having "for some time been subject to melancholy." Whence comes this? All recognized medical authorities tell us that fire tenths consumes the brain in anxiety, followed by derangements of digestion; that good digestion is impossible without pure blood; and pure blood is never known when the liver and kidneys are out of order. Under such circumstances, a preventive should be sought, and for this Warner's safe cure is overreign—a fact conceded by the best authorities in the land, and it is especially commended by the old beloved Dr. D. O. Lewis.—*Rochester Democrat.*

A Mount Vernon (N. Y.) Marcano, the great French scientists, have announced their belief that the large deposits of nitrates in Venezuela have a purely vegetable origin, developed without the intervention of atmospheric electricity.

"Ahlophoros is doing my wife a great deal of good, more good than any other medicine she has ever taken" is the testimonial to its great remedy for rheumatism and neuralgia given by J. S. Helmick, of Berrien Springs, Mich.

Russian peasants half starve themselves to make their bodies so thin that they will not be liable to military service. The chest measurement of a Russian soldier must be one-half his hight.

VERY IMPORTANT.

A cold in the Head causes much discomfort and annoyance and if of frequent recurrence often produces serious results. Catarrh of the nasal passage becomes inflamed and clogged up, an acrid and poisonous fluid is formed, sores form in the head, deafness, headache and roaring in the ears ensue and the sufferer finally develops that he has Catarrh. This loathsome disease has many considered incurable, and never fails to yield to the power of Ely's Cream Balm. This is an article of undoubted merit, and is found to be a speedy, pleasant, cleanly and efficacious remedy which a child can use. It is applied into the nostrils where it is absorbed, diffuses the passages, allays inflammation, heals all sores, cleanses the nasal cells of the offensive discharge and restores the senses of taste and smell. It gives instant relief, and a thorough treatment will certainly cure. Price 50c. at druggists or by mail. Ely Bros., Druggists, Owego, N. Y.
