It was a time not to be forgotten by those present. May Mr. and Mrs. Tibbits live to enjoy many such anniversaries is the the wish of their many friends.

The Christmas rush is at its height. Every year society seems to be taking more interest for this occasion. Let us see to it that we enter into the very heart of it at this particlar time so that we may not be tempted to say that we are not doing anything this year. Not many like to be forgotten, so make out your list for this day, the greatest event of all the year. This is the very time to put forth extra effort, if not in gift making, send loving notes of remembrance. Let all do their part towards "peace on earth and good will toward men" and you will find this is what counts. Remember to make the day brighter for some one who, without your thought would not have any Christmas.

A Dangerous Operation

Is the removal of the appendix by a surgeon. No one who takes Dr. King's New Life Pills is ever subjected to this frightful ordeal. They work so quietly you don't feel them. They cure constipation, headache, biliousness and malaria. 25c at James W. Cobb's and Chas. J. Shain's drug stores.

AT THE THEATRES.

LYCEUM.

The management of the Lyceum theatre promises one of the strongest and best attractions of the season next in the Ward & Vokes reunion production, "The Promoters." It is fortunate that this duo farceurs have joined hands again and in the "The Promoters" theatregoers are assured of a fast tuneful and sightly evening of ridiculous nonsense. It has been but three years since Ward & Vokes separated but during those three years nothing has sprung up to take their place in the affection of musical farce lovers. The company all told, numbers 60 people and of course embraces a big girlly singing chorus.

The engagement opens with a Sunday matinee, in addition to which the regular Wednesday and Saturday matinees will be given with a special performance New Year's afternoon.

WHITNEY.

At the Whitney theatre next week, commencing Sunday afternoon, will be offered the Mittenthal Brothers production of Langdon McCormick's latest effort, "Wanted by the Police," a thrilling tale told in four acts and 12 scenes. The one wanted is a woman, Adele Mooree, who is accused of murder. The story centers around her and Billy West, a telegraph operator, who through discouragements and lack of aim has become a victim of drink. Mr. McCormick has evolved a melodrama of considerable sense, avoiding the rut of the usual melodrama of to-day. The comedy is subservient to the heart and sensational interest.

The engagement is for one week with matinees daily except on Wednesday.

Medicine that is Medicine.

"I have suffered a good deal with malaria and stomach complaint, but I have now found a remedy that keeps me well, and that remedy is Electric Bitters—a medicine that is medicine for stomach and liver troubles, and for run-down conditions," says W. C. Kiestler, of Halliday, Arkansas. Electric Bitters purify and enrich the blood, tone up the nerves, and impart vigor and energy to the weak. Your money will be refunded if it fails to help you. 50c at James W. Cobb's and Charles J. Shain's drug stores.

NOT ALWAYS EASY TO SMILE.

Did You Ever Practice Cheerfulness in Narrowing Circumstances?

It is comparatively easy to be pleasant and cheerful when our bread-and-butter problem is solved, when we are strong and healthy, when we have harmonious, comfortable homes and money in the bank; but the test of character comes when there is a family to support, when a wife and little ones are looking to us for bread and clothing, and the wolf is pretty near the door; when we are struggling against poor health, a discordant home, a dishonest partner. It is a very difficult thing to be cheerful and hopeful when a man is out of a job, with no money in the bank, and an invalid wife and children depending upon him.

It is comparatively easy to be optimistic when the granary is full, when there are no clouds on the horizon, but a very difficult thing to be hopeful and cheerful when the capital is small and business poor. It is hard to be optimistic when notes and bills are coming due and there is no money to pay for goods which lie unsold on the shelves.

It is easy to smile when we are well and everything is coming our way, but when everything goes wrong with us, when undergoing misfortunes or hardships, when those near to us are sick and in distress, when poverty pinches, when the flour is getting low in the barrel, and hungry children look longingly into one's face, then it is not so easy to smile, to give the cordial hand-shake, to be serene, balanced and poised. But this is just the time that real character, that fine training, will stand one in good stead.—Orison Swett Marden, in Success Magazine.

Champion Carrier Pigeons.

B. A. Fogg of Hunts Mills, Garland, is the possessor of some rare carrier pigeons. He has one pair of which the father and mother have a record of flying from Minneapolis, Minn., to Boston in 50 hours. For the last thousand miles of their flight they flew against a northeast storm, arriving with ice and snow frozen to their plumage. This pair had never flown west of Buffalo before. They partook of no food on their trip. Mr. Fogg also has a pair of English carriers, the father and mother having a record of flying over 5,000 miles. These birds are the same breed as those that flew from the balloon of Andre, the Norwegian explorer, who perished in his attempt to reach the north pole. He has also 12 homers that he has been flying from points in Maine. One pair has a record of flying from the Bangor fair grounds to Garland, 75 miles, in 28 minutes, and from Skowhegan, 50 miles, in 60 minutes.—Kennebec Journal.

Gesturing Over the Wire.

"It was the constant gesturing of that fellow at the other end of the wire that made it so infernally hard to catch what he said," growled the man who had been wrestling with the telephone.

"How in the world could you tell he was making gestures?" asked the incredulous listener.

"By the jerky way the words came over the wire. Many people get so excited when telephoning that they gesture as frantically as if they were talking to a man face to face. Their bouncing around and sawing the air accents the voice and the sentences come over the wire in fragments. I have talked with so many people who, I learned later, were standing a jig at the other end of the wire that I always can tell when that gesticulating is going on."

Course of Justice in the Punjab.

In his report on the administration of the police of the Punjab in 1907 the lieutenant governor states that the more serious the crime the greater the chance of escape from law. Convictions were obtained in only 41 per cent. of the murder cases, whereas they were obtained in 64 per cent. of the attempts to murder and in 74 per cent. of the cases of culpable homicide. The district magistrate at Jullundur states that it is getting harder every year to obtain a conviction in the sessions court, the plea of enmity raised against the prosecution being generally held to suffice to throw doubt on the statements of their witnesses.—Calcutta Statesman.

Another Chicago Novelty.

"Yes, they have a new sort of function in Chicago that is quite the rage."

"What is it called?"

"It's called a moving-in party. When the hostess learns that the empty house next door is to be occupied she calls her guests by telephone and they come and draw cuts for the front windows, and then sit there and size up the new neighbor's stuff as the movers carry it in."

Not Very Useful.

A man who stuttered badly went to a specialist and after ten difficult lessons learned to say quite distinctly, "Peter Piper picked a peck of pickled peppers." His friends congratulated him upon this splendid achievement.

"Yes," said the man doubtfully, "but it's a-a-such a-d-d-deucedly d-d-difficult remark to w-work into an ordinary c-c-conversa-s-sation, y' know."—Everybody's Magazine.

Would Not Grasp It Readily.

"Mr. Plume," said the German friend, into whose section the undertaker had lately moved his business, "do you think you will grasp the German language readily?"

"Hardly," responded the jovial undertaker, slapping his friend on the back. "You see, your language is not a dead one!"—Bohemian Magazine.

In the Shop.

The lady had looked at about twenty trunks without finding one to her satisfaction. At length the salesman suggested that if she could give him an idea of what she had in mind he might be able to suit her.

"I want," said the lady, impressively, "a smaller trunk than this, but one that holds more."

Love's Awakening.

"I'm almost sure the count is in love with me," excitely exclaimed the first heiress.

"What makes you think so?" inquired the other.

"He asked me to-day how much I was worth."

Are You Sick?

Much sickness is due to a weak nervous system. Yours may be. If it is, you cannot get well until you restore nerve strength. Your nervous system is nature's power house; the organs of your body get their power from it. If the power is not there, the action of the organs is weak, and disease (sickness) follows. Dr. Miles' Nervine cures the sick because it soothes the irritated and tired nerves and gives the system a chance to recuperate. Try it, and see if you do not quickly feel its beneficial effect.

"I was given up to die by a leading doctor. Got one of Dr. Miles Books and found that Dr. Miles' Nervine fit my case. From the very first dose I took I got better. I am better now than I have been for years, and do all my own work on the farm. That's what Dr. Miles' Nervine has done for me, and I am glad to recommend it to others."

JOHN JAMES, Riverton, Nebr.

Your druggist sells Dr. Miles' Nervine, and we authorize him to return price of first bottle (only) if it fails to benefit you.
