Stomach troubles would more quickly disappear if the idea of treating the cause, rather than the effect, would come into practice. A tiny, inside, hidden nerve, says Dr. Shoop, governs and gives strength to the stomach. A branch also goes to the heart, and one to the kidneys. When these "inside nerves" fail, then the organs must falter. Dr. Shoop's Restorative is directed specifically to these failing nerves. Within 48 hours after starting the Restorative treatment patients say they realize a gain. Sold by Charles J. Shain.

AT THE THEATRES.

LYCEUM.

"Hap" Ward as "Lord Knows Who," and Harry Vokes as "Count Upp," in the big musical jollity "The Promoters," which served these Detroit favorites so well on the occasion of their reunion last season, will be the offering at the Lyceum Theatre, Detroit, next week. There has always been a warm welcome in Detroit for Ward & Vokes, and after a separation of three years their return to the Lyceum last January was marked by the largest business they had ever done in this city.

Their vehicle, "The Promoters" was the brightest picture of musical nonsense they have ever brought to us and the big company, the tuneful airs and sightly production with "Percy and Harold" at the head of it all as of yore, touched a responsive chord in the hearts of the theatre goers.

The engagement opens with a Sunday matinee, in addition to which the regular Wednesday and Saturday matinee will be given

Cough Caution

Never, positively never poison your lungs. If you cough—even from a simple cold only—you should always heal, soothe, and ease the irritated bronchial tubes. Don't blindly suppress it with a stupefying poison. It's strange how some things finally come about. For twenty years Dr. Shoop has constantly warned people not to take cough mixtures or prescriptions containing Opium, Chloroform, or similar poisons. And now—little late though—Congress says "Put it on the label, if poisons are in your Cough Mixture." Good! Very good!! Hereafter for the very reason mothers, and others, should insist on having Dr. Shoop's Cough Cure. No poison marks on Dr. Shoop's labels—and none in the medicine, else it must by law be on the label. And it's not only safe, but it is said to be by those that know it best, a truly remarkable cough remedy. Take no chance then, particularly with your children. Insist on having Dr. Shoop's Cough Cure. Compare carefully the Dr. Shoop package with others and note the difference. No poison marks there! You can always be on the safe side by demanding
