A trial package of Munyon's Paw Paw Pills will be sent free to anyone on request. Address Professor Munyon, 53d & Jefferson Sts., Philadelphia, Pa. If you are in need of medical advice, do not fail to write Professor Munyon. Your communication will be treated in strict confidence, and your case will be diagnosed as carefully as though you had a personal interview.

Munyon's Paw Paw Pills are unlike all other laxatives or cathartics. They coax the liver into activity by gentle methods. They do not scour, they do not gripe, they do not weaken, but they do start all the secretions of the liver and stomach in a way that soon puts these organs in a healthy condition and corrects constipation. In my opinion constipation is responsible for most ailments. There are 26 feet of human bowels, which is really a sewer pipe. When this pipe becomes clogged the whole system becomes poisoned, causing biliousness, indigestion and impure blood, which often produce rheumatism and kidney ailments. No woman who suffers with constipation or any liver ailment can expect to have a clear complexion or enjoy good health. If I had my way I would prohibit the sale of nine-tenths of the cathartics that are now being sold for the reason that they soon destroy the lining of the stomach, setting up serious forms of indigestion, and so paralyze the bowels that they refuse to act unless forced by strong purgatives.

Munyon's Paw Paw Pills are a tonic to the stomach, liver and nerves. They invigorate instead of weaken; they enrich the blood instead of impoverish it; they enable the stomach to get all the nourishment from food that is put into it.

These pills contain no calomel, no dope; they are soothing, healing and stimulating. They school the bowels to act without physic.

Regular size bottle, containing 45 pills, 25 cents. Munyon's Laboratory, 53d & Jefferson Sts., Philadelphia.

Grateful.

"How does Slithers feel about that chauffeur who ran off with his car and his daughter?" asked Wilkes.

"He's mighty grateful," said Bilkad. "He says the poor idiot relieved him of his two most expensive possessions."—Harper's Weekly.

Getting Acquainted.

When the new family moves in next door the old boy and the new boy climb up on the fence to get acquainted, and it is done as follows:

"What's your name?"

"None of your business—what's yours?"

"None of your business. You are sassy."

"So are you."

"Don't talk back to me."

"And don't you to me!"

"I'm an awful fighter when I'm mad!"

"And I'm awfuller than you are!"

"I've got a dog."

"And I've got a goat."

"And five minutes later they are good friends."

HIS VIEW OF IT.

Smart—Do you think the colleges turn out the best men?

Wise—Sure. I was turned out in my sophomore year.

COMES A TIME
When Coffee Shows What It Has Been Doing.

"Of late years coffee has disagreed with me," writes a matron from Rome, N. Y.

"Its lightest punishment being to make me 'logy' and dizzy, and it seemed to thicken up my blood.

"The heaviest was when it upset my stomach completely, destroying my appetite and making me nervous and irritable, and sent me to my bed. After one of these attacks, in which I nearly 'st my life, I concluded to quit the coffee and try Postum.

"It went right to the spot! I found it not only a most palatable and refreshing beverage, but a food as well.

"All my ailments, the 'loginess' and dizziness, the unsatisfactory condition of my blood, my nervousness and irritability disappeared in short order and my sorely afflicted stomach began quickly to recover. I began to rebuild and have steadily continued until now. Have a good appetite and am rejoicing in sound health which I owe to the use of Postum." Name given by Postum Co., Battle Creek, Mich.

POPULAR ELECTION OF U. S. SENATORS

SENATE PASSES MEASURE FOR DIRECT CHOICE OF SENATORS.

AMENDMENT KEEPING FEDERAL CONTROL IS PUT THROUGH.

Amendment Qualifying Bristow Measure Prohibiting Control Unless State Fails to Act, Defeated 46 to 43.

The senate passed the resolution amending the constitution to provide for election of senators by direct popular vote. The vote was 64 to 24. The Bristow amendment giving to the federal government supervision of such elections was adopted, 44 to 44, the vice-president casting the deciding ballot. The house already has passed the resolution.

Senator Reed, of Missouri, protested against the vice-president casting his deciding vote. An amendment by Senator Bacon qualifying the Bristow amendment to prohibit federal supervision of election unless the state legislature refuse or fail to act was defeated, 46 to 43. The resolution as amended was then finally adopted, 64 to 24.

Adoption of the Bristow amendment, which omitted the house provision transferring supervision of senatorial elections from congress to the state legislature, was made possible by Mr. Clark of Arkansas, casting the only Democratic vote for the proposition. The line on that ballot would have been prevented if his vote had been cast with his party, with whom he later voted on adoption of the resolution. On this first ballot, five Republicans, Messrs. Borah, Gronna, La Follette, Poindexter and Works, all insurgents, voted against the provision. On the resolution as amended the vote, 64 to 24, was six more than the necessary two-thirds majority. Of the 24 negative votes, 8 were cast by Democrats and 16 by Republicans as follows:

Republicans—Brandegee, Burnham, Crane, Dillingham, Gallagher, Heyburn, Lippitt, Lodge, Lorimer, Oliver, Page, Penrose, Richardson, Root, Smoot and Wetmore.

Democrats — Bacon, Bankhead, Fletcher, Foster, Johnston, Percy, Terrell and Williams.

Dreadnoughts at Coronation.

The naval review by King George at Spithead, June 24, two days after the coronation, will see gathered together in full commission the largest number of vessels of the dreadnought class ever assembled. Most of them naturally will be units of the British navy, but the United States will be represented by the most powerful and up-to-date battleship participating in the review, the Delaware, which is considered in naval circles to typify the latest ideas of battleship construction. The system adopted in her case of placing the five turrets in a single line is being followed in all the new battleships of the British fleet now under construction.

There are to be no fewer than ten battleships of the dreadnought class brought into line on the review day.

Sale of Firearms Is Up to States.

It is up to the individual states to keep revolvers and other dangerous arms out of the hands of boys according to Republican and Democratic leaders in congress.

In their opinions the federal government might restrict the shipping of firearms to intrastate commerce in some extent, but not enough to make it any less easy for minors to obtain the weapons.

If the boy thug is to be suppressed by depriving minors of the opportunity of obtaining arms, say these statesmen, the only certain way to effect that result is for the states to enforce rigid prohibition of sales to children. Over traffic in weapons within state borders the government has no jurisdiction.

To Decrease Naval Armament.

That the government is still continuing the decrease of its naval armament on the great lakes is evidenced by a report received by the naval militia in Detroit, stating that the gunboat Nashville, now being used by the Chicago naval reserves, is to be removed from the lakes and a smaller vessel substituted in its place.

The Nashville was the vessel to fire the first shot in the Spanish-American war. She is the largest naval vessel now on the great lakes and carries an armament of eight 6-inch guns. She will be detailed for service in the South American waters. She is able to carry a crew of 171 officers and men.

Joseph D. Bren, former cashier of the University of Minnesota, at Minneapolis, who was arrested charged with being short in his accounts, has been reinstated and his bail was raised from $2,500 to $10,000.

The attempt of the management of the Baldwin Locomotive Works, at Philadelphia, where a strike began last week, to resume work in all departments met with only a partial success. It is estimated that only about 2,000 men out of 10,000 reported for work.

The Bartlett Orchard cherry tree at Roseland, planted during the revolutionary war by Josiah Bartlett, one of the signers of the Declaration of Independence, was snapped off by a windstorm. The tree, more than 15 feet in circumference, was one of the most noted landmarks in that section of the country.

Dr. William T. Vernon, a negro, former register of the United States treasury, has been appointed assistant supervisor of schools of the Five Civilized Indian tribes, by the secretary of the interior. His headquarters will be at Muskogee, Okla.

Parcel post packages for Brazil now are received by the United States mail. The parcels must weigh not more than 11 pounds and measure not more than three feet, six inches in length and six feet in length and girth combined. The rate will be 12 cents for each pound or fraction of a pound.

MRS. CARRIE NATION DEAD.

Famous Wielder of Hatchet Dies a Mental Wreck in a Sanitarium.

Carrie Nation, who gained celebrity by her use of a hatchet in the cause of prohibition, died in Leavenworth, Kas., in the Evergreen sanitarium. She was admitted to the sanitarium January 22, suffering from nervous breakdown.

Although it has been reported several times that she was dead, her death was not expected until several days ago.

Mrs. Nation in the sanitarium was incapable of even managing her own business affairs. All trace of the bold prohibition worker had disappeared when her iron constitution began to fail and she spent the last five months of her life in seclusion, no one but relatives and hospital attendants being allowed to see her. When told several days ago that she would die, Mrs. Nation made no comment. Only Dr. A. L. Swakley and a nurse were with her when death came.

Taft's Big Party.

The reception which the president and Mrs. Taft will give on June 19, the 25th anniversary of their marriage, probably will be the most largely attended function ever given at the White House. More than 5,000 invitations have already been sent out and each day the president is suggesting more names, so that the lowest estimate is that 4,000 will be invited and that of these at least three-fourths will attend.

Resolutions were adopted by the Michigan and northern Indiana district conference at Michigan City, that of the German Evangelical Lutheran synod of North America, expressing sympathy towards all movements designed to promote world-wide peace.

Special legislative measures are contemplated for the regulation and improvement of transoceanic emigration. For that reason the Italian ambassadors at Washington and at Buenos Aires have been summoned to Rome.

American girls who have recently organized in three widely separated sections of the United States in movements to parallel that of the Boy Scouts, will combine forces and call themselves the "Girl Pioneers of America."

The California State association of the District of Columbia, held exercises in honor of Joaquin Miller, "poet of the Sierras." The scene was the old cabin occupied by Mr. Miller when he was a newspaper correspondent at Washington. The cabin soon will be removed to Rock Creek park, where it will be preserved as a Miller memorial.

STATE NEWS IN BRIEF

Charlotte.—As a result of a quarrel over some trivial matter concerning their work, several negroes connected with a circus which showed here engaged in a fight with the result that one, William Wiggins, hailing from Tennessee, was badly cut up with a knife wielded by one of his opponents and may die. Wiggins' left arm was broken in two places and badly cut and a knife was thrust in his left side, the cut extending three inches upward under his ribs. For an hour after he was slashed he wandered around the fair grounds looking for the man who knifed him, and finally caught him and slashed him terribly across the arm.

Lansing.—Announcement has been received by the state military department that Lieut. Col. J. G. Galbraith, Fourth cavalry, and Capt. O. L. Spaulding, Fifth field artillery, have been detailed as inspectors and instructors for the M. N. G. camp August 9 to 19 at Port Huron. Captain Spaulding is a Michigan man, the son of General Spaulding of St. Johns, and a graduate of the University of Michigan. Captain Spaulding was adjutant at the field artillery camp at Sparta, Wis., last year. He is at present on duty at the war college in Washington.

Hastings. — After lying nearly three days unconscious in her home in Yankee Springs township, south of Middleville, Mrs. Amos Wilson, aged eighty years, is dead. Her only companion was her middle-aged daughter, who is partially demented. She did not realize her mother's condition, and the aged woman was discovered by a visitor, who immediately summoned a physician from Middleville. His arrival was too late, however, as Mrs. Wilson soon passed away.

Birmingham.—Following a happy afternoon with members of the Clio Literary club of Detroit at the home of her daughter, Mrs. John Starr, at Willow Brook, about three miles south of here, Mrs. G. D. Whitney of Pavilion, N. Y., aged sixty-seven, was struck and almost instantly killed by a Detroit-Pontiac limited car, soon after the guests had taken a car for home. The aged husband was compelled to stand helplessly by and witness the tragic death of his wife.

Monroe. — William Curtiss and Mary Curtiss, his housekeeper, of Bedford township, were guilty of sending a threatening letter through the mail to Abraham Maybee, a farmer of Lambertville. The man was sentenced to one year in Jackson prison and the woman to one year in the county house upon conviction of the charge of the use of morphine, otherwise to the Detroit house of correction for a like period.

Pontiac. — Pontiac township will build a state reward road out Oakland avenue from the city limits to Waterford township at once. A little later two miles of road will be built out Perry street and residents of the steam mill road are circulating subscription lists to secure funds to continue the state road built last fall to the northerly township limit.

Saginaw.—With their wedding set for June 21 and a case of scarlet fever in the family which would prevent a large wedding, Caro Whitney, daughter of Senator Whitney of Merrill, after being humiliated by the family doctor, came to Saginaw. Here she met the Reverend Clayton, H. R. Spendlove, of the same place, and they were quietly married.

Alpena. — Lightning struck the Moench tannery. The fire which started did damage to the extent of $2,000. A big water main burst from the heavy fire pressure and flooded the streets in the vicinity of the Fletcher paper mill to a depth of two feet.

Richmond. — Mrs. Wilhelmina Lindke, a Lenox pioneer, is dead, aged seventy-six years. She is survived by six children. Gustave A. Lindke and Herman Lindke of Detroit are her sons.

Flint.—P. G. Dalagan, who was sentenced to five days in jail for intoxication, died in jail. When Dalagan appeared in court he pleaded to be allowed to return home, stating that he was ill, but the court decided to send him to jail. Excessive intoxication is given as the cause of death.

Saginaw.—Mrs. Nellie Hemp has asked the help of the police to locate her nine-year-old son, Monroe, who went away two months ago with a blind man. The child is also sightless. The boy has been seen in several Michigan towns, but not of late.

Kalamazoo. — Clarence Walker, an eighteen-year-old boy, was arrested, charged with forging his mother's pay check at the Kalamazoo Laundry company. The arrest of the boy was made upon complaint of his mother, who told officers that her son had spent the money he had glanced to buy grocories with. The boy admits his guilt.

Lansing.—Tom Williams, from Middleville, a forger sent to Jackson prison in 1908, is lucky in having a five-year-old boy bright enough to make a plea for his father, for the lad's innocent earnest way of urging to Governor Osborn that Williams should be released from prison has resulted in a parole for him.

Ionia:—The case of Earl Johnson, in jail on a charge of a statutory offense, came to a sudden end because the complaining witness, Daisy Richmond, of Belding, had left the state for Indiana. Johnson pleaded guilty of simple assault.

Berrien Springs.—Betty, the four-year-old daughter of Mr. and Mrs. Earl Kinsey of this place, died quite suddenly after chewing a blossom from a night shade. The child was discovered chewing the blossom and although it was taken from her at once she became seriously ill. A physician was at once summoned but the child died just as the doctor arrived.

Calumet.—Mrs. Charles Stannard was refused bail by Circuit Judge Cooper of Ironwood, at Ontonagon, and was committed to the county jail to await trial for murder. At the September term of court.

DOCTOR PRESCRIBES CUTICURA REMEDIES

"I wish to let you know of a couple of recent cures which I have made by the use of the Cuticura Remedies. Last August, Mr. ——— of this city came to my office, troubled with a severe skin eruption. It was dermatitis in its worst form. It started with a slight eruption and would affect most parts of his body, thighs, elbows, chest, back and abdomen—and would terminate in little pustules. The itching and burning was dreadful and he would almost tear his skin apart, trying to get relief. I recommended all the various treatments I could think of and he spent about fifteen dollars on prescriptions, but nothing seemed to help him.

"In the meantime my wife, who was continually suffering with a slight skin trouble and who had been trying different prescriptions and methods wish my assistance, told me she was going to get some of the Cuticura Remedies and give them a fair trial. But as I did not know much about Cuticura at that time I was doubtful whether it would help her. Her skin would thicken, break and bleed, especially on the fingers, wrists and arms. I could do nothing to relieve her permanently. When she first applied the warm baths of Cuticura Soap and applications of Cuticura Ointment she saw a decided improvement and in a few days she was completely cured.

"I lost no time in recommending the Cuticura Remedies to Mr. ——— and this was two months ago. I told him to wash with warm baths of the Cuticura Soap and to apply the Cuticura Ointment generously. Believe me, from the very first day's use of the Cuticura Remedies he was greatly relieved and today he is completely cured through their use. I have great faith in the Cuticura Remedies and shall always have a good word for them now that I am convinced of their wonderful merits." (Signed) B. L. Whitehead, M. D., 108 Dartmouth St., Boston, Mass., July 22, 1910.

Kissing Breach of Peace.

The better half of a respected citizen of New Jersey recently had the temerity to hale her lord and master before the court on a charge of having kissed her against her will. For this heinous offense this shameless Jersey benedict was bonded over in $100 bail to keep the peace, and, moreover, was warned by the judge never again to kiss his wife without first obtaining her consent in due form. If he is any kind of a man, probably he will never want to kiss her again.—Washington Herald.

Hadn't the Material.

"I really never saw such an impudent man as that Mr. De Borrowe," said Miss Wrathy. "He actually had the nerve to ask me the other night how I managed to get that lovely tinge of auburn in my hair!"

"Really? Well, why didn't you box his ears?" asked Miss Slimm.

"Why, I only had my Easter hatbox handy, and that wasn't big enough," said Miss Wrathy.—Harper's Weekly.

POOR RETURN FOR CHIVALRY

Incident That Probably Has Forever Discouraged Kind-Hearted Mr. Jones.

Chivalrous Mr. Jones purposely dropped a fifty-cent piece at the foot of a poorly dressed woman who passed through the Subway turnstile loudly lamenting that the ticket agent had cheated her out of half a dollar, then he picked the money up and gave it to her.

"Excuse me, madame," said Mr. Jones, "I think you dropped this."

"Oh, no," said said, "it can't be mine. Perhaps you dropped it, yourself."

"Oh, no," said Mr. Jones. "It is yours, I am sure. I picked it up just as you passed."

She took the money, and hurried after another man who had passed at the time the money dropped.

"Excuse me, sir," she said, "I think you lost this."

"Thanks," said the other man, and jumped aboard a train that was ready to start.

"— — — —!" said chivalrous Mr. Jones.—New York Times.

THE HEART

If the blood is poor and filled with the poisons from diseased kidneys or inactive liver, the heart is not only starved but poisoned as well. There are many conditions due to impure blood—such as dropsy, fainting spells, nervous debility or the many scrofulous conditions, ulcers, "fever sores," white swellings, etc. All can be overcome and cured by

Dr. Pierce's Golden Medical Discovery

This supplies pure blood—by aiding digestion, increasing assimilation and imparting tone to the whole circulatory system. It's a heart tonic and a great deal more, having an alterative action on the liver and kidneys, it helps to eliminate the poisons from the blood.

To enrich the blood and increase the red blood corpuscles, thereby feeding the nerves on rich red blood and doing away with nervous irritability, take Dr. Pierce's Golden Medical Discovery and do not permit a dishonest dealer to insult your intelligence with the "just as good kind." The "Discovery" has *40 years of cures* behind it and contains no alcohol or narcotics. Ingredients plainly printed on wrapper.

Dr. Pierce's Common Sense Medical Adviser is sent *free* on receipt of stamps to pay expense of wrapping and mailing *only*. Send 31 one-cent stamps for the French cloth-bound book. Address: Dr. R. V. Pierce, Buffalo, N.Y.
