THE BIRMINGHAM ECCENTRIC

ONE DOLLAR PER YEAR IN ADVANCE.
WHITEHEAD & MITCHELL, PUBS.

BIRMINGHAM, FRIDAY, OCT. 19

If facts speak for themselves, what wonderful facts some women's tongues must be.

The man who doesn't respect himself should not blame others if they follow his example.

Says an old bachelor: "Before taking the leap through the wedding ring a man should be sure the net of conjubial bliss is properly stretched on the other side."

A Swiss genius has invented a pith cloak weighing about one pound which will hold up a fully equipped soldier on the surface of the water. Successful experiments were made recently on the Lake of Zurich. The cloak is provided with waterproof pockets in which food and ammunition may be carried as well as a flag, to be used in case the wearer wishes to attract attention.

New Minister of Quebec.

Hon. Simon Napoleon Parent, the new prime minister of the province of Quebec, in succession to the late Premier Marchand, is a distinguished lawyer, who by sheer force of talent and industry has carved out a noble career. Ten years ago Mr. Parent was practically unknown. To-day he is on the high road to political distinction of the first order. He earned with his own hands and brain the money which paid for collegiate and legal education, and after his admission to the bar in 1881 he applied himself so closely to his profession that soon he had a large practice. In 1891 he was elected to the assembly of Quebec in the Marchand interest he was soon recognized as the ablest man in the house, and when the Marchand party came into power he was made speaker of the house.

Costly Indian Dress.

FANNIE WHIRLWIND

$1,500 Few girls, even in the homes of wealth in eastern states, have such a costly garment in their wardrobe. Fannie Whirlwind is the daughter of Chief Whirlwind, a noted leader of his tribe before his death. Her dress of buckskin is covered with 800 wild elk teeth. The dress is said to be 20 years old and was tribal treasure on elk production. It has been the pride of the family ever since. The elk teeth are found only in the Black Hills region, in the west. Each tooth has a small hole in the apex of the root, and it is the ambition of every Indian maiden who aspires to be a belle to have a dress with enough of these teeth to make her look like a short time.

Prince George of Greece.

Prince George of Greece, who is about to return to Crete with the expectation that he will be elected governor of the island, is known ill in Athens for some time. His physicians put it down to a cold caught while hunting in the Thessalian plain, but it was generally believed that he was suffering from the effects of a wound received in a duel with a Turkish officer. Prince George is 31 years and a giant in stature, with strength in proportion to his size. He saved the life of the present czar when the two were traveling in Japan as youths. The assassin, who tried to thrust a knife into the body of the czarowitch, was face to face with a kind in the hands
