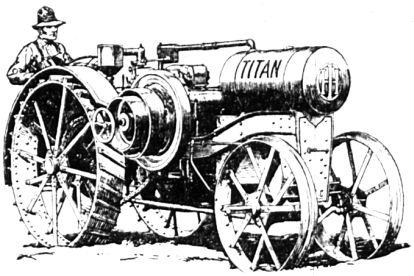
$225 Cut in Price of Titan 10-20



BEGINNING July 1st, 1919, the 1920 price of the Titan 10-20 kerosene tractor is

$1,000
CASH F. O. B. Factory

$1050 when time is given

Reasonable terms will be given to any man who needs the Titan now and cannot pay cash in full. These terms are new.

WE have reduced the price of the Titan 10-20 from $1,225 to $1,000. This big cut is not justified by present prices of materials and labor, but is made in anticipation that the largely increased volume of business developed will offset the reduction. The Titan now becomes the world's most popular priced 3-plow tractor.

If you have been holding off buying a tractor because $1,000 was your limit for a good 3-plow machine, your price will now buy the best one.

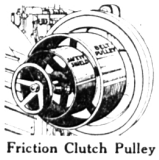
To sell the Titan 10-20 at this low price, not a single necessary feature has been taken off to be bought at extra cost. The Titan comes to you complete. The Harvester Company is too old at the business to offer you a tractor which is not 100% efficient at the drawbar and 100% efficient on the belt.

Remember, the Titan is a 3-plow tractor. Don't confuse it with low-powered 2-plow machines. For a fair comparison as to price, add one-half the cost of any 2-plow tractor to its advertised price, then add the cost of all the extras you must buy, and that will put it on a par with the Titan 3-plow tractor. Then compare values.

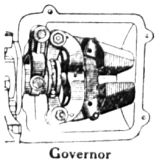
In addition, remember the Titan is a genuine kerosene tractor. Gasoline as tractor fuel is unwarranted extravagance. Don't forget that. We give you a written guarantee that the Titan operates efficiently on kerosene.

You can't make a mistake if you select a Titan 10-20 at its present low price. It will give you power satisfaction that will stand by you steadily season after season at drawbar and belt. You may rely on Harvester reputation for good service and fair dealing. Go to your dealer. Arrange for immediate shipment. This price reduction may make delivery difficult later. Place your order now.

These Features, Regular With Titan, Are Charged for Extra by Some Tractor Makers:



Friction Clutch Pulley



Governor

Friction Clutch Pulley With the Titan you get a large wide friction clutch pulley, put in the right place by a company that knows where it belongs. It is provided with a safety shield. The belt work season is on. *No extra charge for Titan pulley.*

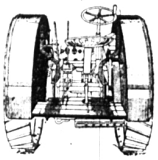
Throttle Governor With the Titan you get a throttle governor. It gives you steady speed for belt work, saves fuel, prevents grain losses, works automatically and perfectly. *No extra charge.*

Starting and Service You get the Titan tractor without the compulsory starting and service charge made by some companies. Complete instruction in starting and operating is given free. *No extra charge.*

Drawbar With the Titan you get a convenient drawbar, adjustable sideways and up and down. Fits every need. Compare it with others. *No extra charge.*

Fenders With the Titan you get drive-wheel fenders. They stand for safety. They also protect the engine and operator from mud and dust. *No extra charge.*

Platform With the Titan you get a rear platform. You can stand up and run the tractor, put in more hours with less fatigue. *No extra charge.*



Platform and Fenders
