SCOUT MANUALS DISTRIBUTED HERE

Stanley Gives Outline Book To Leaders For Intensive Study

A Manual of Standards has been distributed among the scout leaders and Boy Scouts in Birmingham for the first time by Loyd L. Stanley, commissioner of this district.

The manuals are an interpretation of the Handbook for Boys and are distributed with the object of standardizing the examinations and advancement of this district.

Contained in the manuals are the requirements for the three degrees of advancement, tenderfoot second class and first class, explaining in detail points necessary to obtain these badges, coveted by ambitious scouts.

To become a tenderfoot a boy entering a troop must pass an examination with a grade of at least 95%, the book explained included in the questions are the scout laws, history of the flag scout oath, and a demonstration of his ability to tie a required number of knots. Following a month's service as a tenderfoot a boy may then work for second class badge. Included in the requirements are a certain knowledge of thrift, signalling, first aid, scout pace, use of knife and hatchet, fire building, cooking, tracking and compass.

After becoming a second class scout a boy is entitled to work for first class. The following subjects are required for first class service signalling, swimming, thrift, first aid, hike and map making.

Mr. Stanley and Charles D. Carr, chairman of the local court of honor believe that great benefit will be received by the scout leaders and boys from these manuals.

Whatever we may think of the Mexicans, we must admit that at least one of them has much to commend him. Congressman Juan Salas Barrasa has declined an offer of $50,000 to tell theater-goers in the United States how he killed Pancho Villa.

Mrs. Ruth Ahling of Chicago has reclaimed her baby which she left in a movie theater about a year ago.

Tom Jackson stopped in Joe Green's grocery store yesterday to warm a while, and to start conversation he asked Joe if he meant to make any New Year's resolutions. Joe said he did, and that he aimed to stop crediting certain people who can't ever seem to remember about owing him anything. After which Tom felt warm enough to go out without saying any more.

Miss Daisy Bell has just handed us the poem which we recently warned the readers she was writing. She wants to know do we think the editor will print it. Naturally we can't say what anybody will do except ourselves, and not always then. But we told her we had nerve enough to try it if she did, so here it is.

Saturday Night in Town

Folks from bigger places
Sometimes want to know
If, in a town like ours,
Things ain't awfully slow.

An' if that's their notion
We'd like to set 'em right
By hasin' them see us
On some Saturday night.

Supper's hardly over
When the fun commences;
Everybody's rushin'
Like they'd lost their senses.

Pa must shave real quick
And Mother's got the glass;
Sister flies around
Puttin' on high class.

Can't be bothered now
Got to hurry down;
Lots of things to see
Saturday night in town.

All along the streets
Flivvers packed in tight;
People from the country
Stayin' late tonight.

Minglin' on the corners,
Men a swappin' views,
Voices everywhere
Women passin' news.

Girls dressed in their best
Keep a strollin' by,
Boys in groups a watchin'
Tryin' to catch their eye.

Barber shop is crowded
Can't get in the stores;
Movie show is full
Clear up to the doors.

'Round and 'round the square
Feet a paddlin down;
Lots of sights to see
Saturday night in town.

More than 2,500,000 square feet of floor space are being added to the present plants of the Oakland Motor Car Company at Pontiac, Michigan, which will be devoted exclusively to the manufacture of Oakland and Pontiac Sixes

$15,000,000 more

to Meet the Demand for Oakland and Pontiac Sixes

Scarcely twelve months ago Oakland was only one of many manufacturers striving for preeminence. Today it ranks among the largest builders of motor cars in the world. Responsible for this tremendous growth have been a continuous series of triumphs resulting in a record-breaking 212% increase in business over 1925.

212% Increase

1925 Production	43,018
1926 Production	134,089

Oakland and Pontiac Sixes

With the advent of the past year, came the introduction of the Pontiac Six. So great was the demand it created, that in six months Pontiac Six production had *exceeded the greatest full year record previously scored by a new make of car.* And by the end of the year, with Pontiac production reaching 76,523 cars, that record had been surpassed by more than 100%! In July came the Greater Oakland Six with 77 refinements, featured by that epochal engineering development—the Rubber-Silenced Chassis. Again America paid a wholehearted tribute to Oakland engineering vision. And again, in every section of the land, Oakland sales leaped upward, necessitating the unprecedented production of 57,566 Oakland Sixes—nearly 15,000 more than in 1925—and surpassing any previous record in Oakland's twenty year history.

Now, with its position securely established, Oakland-Pontiac bids for new and greater heights—for over fifteen millions of dollars are being invested to provide for greater production.

This staggering sum—the combined cost of a new Pontiac Six plant, with a capacity of 1,000 cars a day and of important expansions in the facilities devoted to the manufacture of Oakland Sixes—definitely assures Oakland-Pontiac buyers of even greater value in the future. For it makes possible the employment of even more efficient methods of production—even greater precision in construction—even more exacting standards in the never-ending inspections which govern every phase of Oakland-Pontiac manufacture and which have been so instrumental in achieving worldwide good will for these two quality Sixes.

In the strictest sense, this huge investment represents more than an expression of confidence by General Motors in Oakland principles of design, manufacture and distribution.

It stands as a tangible pledge to the public at large that in fundamental goodness and fundamental value Oakland Six and Pontiac Six will continue supreme in their fields!

Pontiac Six, $825 to $975. Oakland Six, companion to Pontiac Six, $1025 to $1295. All prices at factory. Bodies by Fisher. Easy to pay on the liberal General Motors Time Payment Plan.

A STATEMENT

By the President of Dodge Brothers, Inc.

Within a few months, Dodge Brothers, Inc., will introduce a new line of motor cars, in no way conflicting with the market for Dodge Brothers present types, but occupying a considerably higher price field and produced in limited quantities.

Combining Dodge Brothers well known dependability with exceptional performance and striking beauty of appointment and design, these distinguished vehicles, we believe, will instantly set a new and higher standard in fine car practice.

Dodge Brothers will continue to produce their present line in maximum quantities to meet a demand which, during the year just ended, was very much the largest in their history, reaching the record total of 330,000 cars.
