ANGLERS REPORT SPLENDID SEASON

Trout Fishing To End Sept. 1; Plentiful Catches Are Shown

Lansing, Aug. 28.—One of the most satisfactory trout seasons in Michigan in years will come to an end at midnight, Monday, Sept. 1.

At that time every trout stream and designated "trout" lake in the state will be closed to all fishing.

There are a few exceptions when rainbow trout fishing in certain designated waters will continue to specified dates after the regular season closes. These few exceptions are listed in the Digest of Fishing Laws, distributed by the Department of Conservation throughout the state.

Fishing for large and small mouth bass will continue after Sept. 1 in non-trout streams and all lakes except designated trout lakes, up to and including Dec. 31. All other species of bass, bluegills, sunfish, perch, pike perch, Great Northern and grass pike, muskellunge, lake trout, and all non-game fish may be taken in non-trout streams and in all lakes but trout lakes up to and including Mar. 31.

Since the game fishing season opened last spring the Fish Division of the Conservation Department has received thousands of creel census cards from anglers who have made studied comments on fishing conditions. The concensus of opinion expressed through these cards has indicated a highly satisfactory fishing season generally throughout the state.

Ah!

When the guest was just leaving his hotel to hurry to the station, he noticed that he had forgotten something. He said to the page-boy: "Run up quickly to room 456 and just see if my umbrella is there. I think it's to the left of the washstand. But hurry up!"

A minute later the boy returned and panted: "Yes, sir, the umbrella's still there, at the left of the washstand."—Faun, Vienna.

He had just stolen a hurried kiss.

"Don't you know any better than that?" she demanded indignantly.

"Sure!" he replied. "But they take more time."—Montreal Star.
