THREE BOY SCOUTS AMONG SENIORS

High School Lists Registered Leaders For First Time In Years

For the first time in some years there are actively registered Boy Scouts who are members of the Senior class in high school, records of the Birmingham District Committee show.

This fact is regarded as an awakening interest in Scouting among older boys, according to H. D. Crull, district commissioner. Formerly most Scouts have dropped out before reaching the Senior class. Only one or two have remained active and only a few have even been registered with the National Council.

Each of the actively-registered Scouts who are senior is engaged in junior leadership of some sort. Through this plan it is felt that their interest is kept and that they are prepared for senior officer's commissions in Birmingham or elsewhere. A number of Birmingham Scouts have become Scout leaders, here and in other communities. Donald C. Mann, Scoutmaster of troop 4, was a Scout here, as was Leland Gunn, recently resigned Scoutmaster of troop 2. Walter Guthrie, a student at the University of Michigan, accepted an assistant Scoutmaster's commission in Ann Arbor after a period of long service with troop 3.

The Scouts who are members of the class of 1931 at Baldwin High School are Thomas Martindale, senior patrol leader, and patrol leaders Dumont Mills, Jr., Theodore Etter, and Stoddard White. Junior assistant Scoutmaster Howard Sentenney is a Senior at Royal Oak High School. All are members of troop 3 under Scoutmaster Alfred C. Schalm.

WE HEARD IT SAID BY— **Eddie Edwards**, local pianist and music teacher: "Few people realize what great care and pains an artist like Paderewski, for instance, must take in order to be the wonderful musician he is. The story is told of how Paderewski practiced for several hours on a piano in Paris, just to master one short measure of a piece of Beethoven's; when someone suggested that he need not do this, because you can easily slip by that with your audience, Paderewski replied that he could not do so, if he properly interpreted Beethoven's mood. Paderewski, before starting out on his present tour, probably played continually for five months, eight hours each day.

"Soul and Body" was the subject of the Lesson-Sermon in all Christian Science Churches on Sunday, November 23.
Among the citations which comprised the Lesson-Sermon was the following from the Bible: "Therefore we are always confident, knowing that, whilst we are at home in the body, we are absent from the Lord:" (II Cor. 5:6).
The Lesson-Sermon also included the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy: "Become conscious for a single moment that Life and intelligence are purely spiritual,—neither in nor of matter,—and the body will then utter no complaints. If suffering from a belief in sickness, you will find yourself suddenly well" (p. 14).

"We invade a new field with vastly improved cars at the lowest prices in our history"

BY WILLIAM J. McANENEY
President, Hudson Motor Car Company

WE have built these models up to and beyond the 1931 standards of performance and quality in every way, and have never in our history offered so many improvements. Quality is greater down to the last detail. Every phase of performance has been greatly improved, and the luxury we have built into the cars is substantially greater than ever before. Motors are larger and more powerful. An efficient system of oil cooling is introduced. A marked improvement in carburetion increases flexibility and economy. Bodies are longer and wider. These cars possess the finest, easiest riding qualities. For the first time, such comfort is available at these low prices. Only great manufacturing economies and the fact that our large resources permit us to take the fullest possible advantage of reduced commodity prices have enabled us to offer the public the greatest combination of quality and low prices in our entire history.

Owner-Management Permits Exclusive Value Advantages

Owner-management enables Hudson-Essex to give you outstanding advantages in quality and price. The men who are now guiding its destinies have been with the company since its inception twenty-two years ago. Its department heads and principal distributors are its controlling owners. Their independence is backed by unusually large resources in capital and plant facilities. It enables Hudson-Essex to lead in design and engineering quality. It permits economies in manufacture and distribution that bring exceptional quality direct to the public at distinct price advantages.
