Saved at Death's Door.

The door of death seemed ready to open for Murray W. Ayers, of Transit Bridge, New York, when his life was wonderfully saved. "I was in a dreadful condition," he writes, "my skin was almost yellow, eyes sunken, tongue coated, emaciated from losing 40 pounds, growing weaker daily. Virulent liver trouble pulling me down to death in spite of doctors. Then that matchless medicine—Electric Bitters—cured me. I regained the 40 pounds lost and now am well and strong." For all stomach, liver and kidney troubles they're supreme.

When la grippe attacks, as you value your life, don't delay getting Dr. King's New Discovery. "One bottle cured me," writes A. L. Dunn, of Pine Valley, Mississippi, "after being 'laid up' three weeks with la grippe." For sore lungs, hemorrhages, coughs, colds, whooping cough, bronchitis, asthma, it's supreme. 50c and $1.

AROUND THE STATE

SEEKS LONG-BURIED SWORD

Maryland Veteran Believes He Can Recover It from Hiding Place on Southern Battlefield.

Col. Oswald Tilghman of Easton, Md., has gone to Port Hudson, Miss., to visit relatives and friends and to try to recover a sword which was buried July 9, 1863, nearly forty-six years ago, when Gen. Gardner, the confederate commander was forced to surrender Port Hudson to Gen. Banks. At that time Col. Tilghman was a captain of artillery, and had the sword buried by one of his men. The colonel says that his recollection of the event

Threw Dirt and Sod on Vessel.

is so vivid that he feels certain he can go to within twenty feet of the spot.

The incident of the burial of the sword includes two fighters of national celebrity, for Admirals George Dewey and Winfield Scott Schley, the latter a loyal Marylander, took a prominent part in the fight at Port Hudson, and the three compared notes only a short time ago and laughed heartily over one of the features of the fierce fighting of the time and the locality.

The confederate force of some 5,000 men stood off for nearly two months 25,000 union men, and Capt. Tilghman and his men for a month had nothing on their menu cards but catfish caught in the Mississippi, and mule meat. There was not a grain of salt nor a bit of bread to go with these tempting delicacies. Three other officers of his hot-shot battery were killed, and the command devolved upon Capt. Tilghman in the thick of the fight when Farragut's fleet made an attempt to run the gantlet of the confederate fire.

The frigate Mississippi, of which Admiral Dewey was then the executive officer, was destroyed by Capt. Tilghman's battery. Then came the Richmond, of which Admiral Schley was navigator. A shot from the battery smashed through the steam chest of the Richmond, putting that vessel out of commission. The Richmond was left to the mercy of the current, which ran at a rate of about five miles an hour, sweeping in close against the bluffs, nearly 100 feet high, upon which the battery was perched.

It was not within the power of the battery to shoot straight down on the ship, and the men on the ship could not shoot straight up into the air to do any great damage. Capt. Tilghman, anxious to do as much execution as possible, ordered his men to dig off the top of the bluff, and so much dirt and sod was showered down on the Richmond that Admiral Schley says to this day that he could have raised truck on his deck had the occasion been favorable.

While on his trip Col. Tilghman will do honor to a brave Maryland general of the confederate side in the civil war, and a kinsman as well, Brig. Gen. Lloyd Tilghman, on whose staff Col. Tilghman was an aid during a part of the great struggle. He will go to Paducah, Ky., to attend the unveiling of a monument to Gen. Tilghman, which has been presented to the Daughters of the Confederacy by the sons of Gen. Tilghman.

The monument was placed in Paducah because Gen. Tilghman, who was born at Claiborne, Talbot county, Md., was the civil engineer who built the Mobile & Ohio railroad from Paducah to Mobile. At the outbreak of the civil war he entered the confederate infantry, but soon was promoted to be a general, and, with Gen. Simon B. Buckner, after the surrender of Forts Donelson and Henry, was imprisoned at Fort Warren, Mass., until they were exchanged in the summer of 1862.

Mason 108 Years Old.

The Masons from Franklin, Silton and Salisbury, N. H., paid a fraternal visit on October 26, to James Bellows McGregor of Newport, who is said to be the oldest Mason in the world. Mr. McGregor is also said to be the oldest pensioner in the United States, being a veteran of the war of the rebellion. He was born in 1801, and is now 108 years old, and still hale and hearty. He received the degrees of Free Masonry in Samaritan lodge, 26, of Salisbury. He became affiliated with Mount Vernon lodge, 14, of Newport, January 13, 1851.

The mental activity and vigor displayed by Mr. McGregor were little short of remarkable. He greeted each of the visitors pleasantly, and in many cases with flashes of wit, that surprised his listeners and caused the room to ring with merry laughter.
