There are times in the work of a newspaper man when he must be controlled by his sympathies for the innocent ones in the publication of news. The Eccentric hedges in such cases and is willing to accept the criticism of some if good is accomplished and aching hearts are saved further pain.

In the justice court of A. W. Campbell last week John Campbell, a laborer, was sentenced to the county jail for 30 days. Even at that her acceptance if she is chosen is not a sure proposition. The honor is indeed great.

Mershon, of the state tax commission. We have known that all along but did not want to say anything about it for fear those who have thousands of dollars might try to square the thing up and flood the treasury to the extent that it might tip over and hurt somebody.

It is quite frequent that newspapers find themselves unappreciated by the men whom they have favored by their support, column after column having been published in their favor, and yet such favors, when the test comes are unappreciated. When you find your home paper taking no interest in your or your success, when you see it keeping aggravatingly silent when you think the editor should be tearing his linen in your behalf, do not work yourself in a fever of anxiety as to the cause, just ask yourself wherein you have placed the paper and the editor under obligations to use energy for you.

Home Builders Want Good Lumber

In fact, most of them absolutely insist on getting the best that their money will buy, and in that particular we heartily agree with them, because that is just the way we buy all our Lumber. It must be strictly up to the grade. There are some manufacturers, however, who interpret grades more liberally than others, and you can bet your last dollar that we know who they are. Because of this inside knowledge we're not afraid to put our Lumber up against any in the country. Come in and look this Lumber over and let us make you prices.

Lawyer Had Enough.

A badgering lawyer was examining a doctor in an assault case, says the New York Sun. The solicitor represented the defense, and the doctor testified that he treated the prosecutor for a black eye. "What do you mean by a 'black eye?' queried the legal gentleman. "I mean," said the doctor, without a smile, "that the prosecutor had received a severe contusion over the lower portion of the frontal bone, producing extensive ecchymosis around the eye, together with considerable infiltration of the subjacent areolar tissue." The medical witness was relieved from further cross-examination.
