A GRANDFATHER'S STORY

From $143 to a Competence in Three Years.

E. J. Chamberlain tells a story of his efforts before moving to Canada in 1910 to make a living. It was hard work. He had so many ups and downs that he became discouraged before he learned of the success of former neighbors of his who were doing well up in Canada. He sold his holdings for a song, and had a sale of what effects he had. When he straightened up with his storekeeper and paid a few debts he found that he had $143 in cash, in good condition, a wife and five children. He had saved some few things from the sale. These he put into a car with the effects of a couple of others who like him were going to Canada. He went into the Dem Colony in Alberta in 1910 bought a homestead and commenced operations. The money he placed in the bank, and started one of his boys on his own small money to sample the noble. The older boy used his wages to break up the sod on the boy's place. But Mr. Chamberlain tells the story of the story, which he has signed over his own signature. He says: "I rented 50 acres and hired it put into wheat. I furnished 23 wagonloads for my share. We lived in the granary two years.

"The first of December, 1918 I laid the concrete foundation for a twenty two hundred dollar house and completed it the first of January. I have at the head of horses and mules. Five head of cattle, fifteen pieces of machinery, seven outbuildings paid for and half interest in a threshing machine. This is an old grandfather's story. My son-in-law came with four children from Idaho last March and bought 320 acres C. P. R. land and we helped him develop 200 acres of it. They can't say enough about everybody working hard and

Increased His Wealth Six Hundred Fold.

There are many cases as well as that of Mr. Chamberlain. Take the case of Nelson H. Hill, Medicine Hat, Alta. In speaking of his success he said: "I came here from Ontario, Canada, in 1910 with a family of six children. I had $100 in cash and a team of horses. I had no money when I came to Canada. I worked for a farmer for $35 a month and board. When I left my employer I had a family to support and only $2 cash in my pocket
