Report of F. F. Van Tuyl To Citizens' Water Commission

Detroit, Mich., October 25, 1921.

Mr. E. B. Hewitt, Chairman and W. J. Reineke, Secretary, Citizens' Water Commission, Birmingham, Michigan.

Gentlemen:

At a meeting of the Engineering Committee of the Citizens' Water Commission held in Birmingham in the early part of the month of September it was decided that it was for the best interests of the water supply of the village of Birmingham that three wells each having a capacity of 500 gallons of water per minute should be built and Vertical Electric Motor driven pumps installed therein and that in addition to these pumps an elevated tank to hold 200,000 gallons of water should be erected on a structure 100 feet high.

In order to arrive at the probable cost of this work definite proposals were received on many of the major items which proposals are given herein for your information and approval.

The main question before the village of course is the production of water and two proposals were received for the construction of wells and pumping machinery to be installed therein based on a guaranteed output from these wells of 1500 gallons of water per minute, the contractor in each case agreeing to file a surety bond for the faithful fulfillment of his contract.

These prices are as follows:

Layne & Bowler Co., Memphis, Tenn.	$36,000.00
William H. Cater, Chicago, Ill.	34,300.00

In addition to the above prices we have received proposals on the installation of the wells and on the installation of the pumps from different contractors, but no guarantee attaches to these proposals, which are as follows:

S. B. Geiger, Chicago, Ill., 3 wells 24 in. in diameter, at an average of 143 ft. deep complete with casing and screens	$25,500.00

For the pumps to go in these wells the following prices were received each pump having capacity of 500 gallons per minute and is completely equipped with electric motors:

American Well Works, Aurora, Ill.	$11,599.50
Mid West Engine Co., Anderson, Ind.	10,360.00

Taking the price of the Mid-West Engine Company for the pumps and S. B. Geiger for the wells given a combined price for pumps and wells of $35,860.00 without any guarantee as to the water which would be produced by these wells.

This price you will notice is practically the same as the price submitted by Layne & Bowler and William H. Cater both of which contractors guarantee the output from their wells.

The following prices were received for an elevated water tank of 200,000 gallons capacity on a structure 100 feet high:

Memphis Steel Construction Co., Pittsburgh, Pa.	$11,880.00
Pittsburgh Des Moines Steel Co., Pittsburgh, Pa.	12,500.00
Chicago Bridge & Iron Works, Chicago, Ill.	14,500.00
Wisconsin Bridge & Iron Works, Milwaukee	16,100.00

For operating the pumps automatically according to the water level in the tank proposals were received as follows:

Electric Controller & Mfg. Co., Cleveland, Ohio	$1,345.29
Cutler-Hammer Mfg. Co., Milwaukee	1,246.10

For an electric motor operated fire alarm siren as recommended by the Board of Fire Underwriters the following prices were received:

Federal Electric Co., Detroit, Mich., one 3 horse power federal siren	$396.00
Inter-State Machine Products Co., Rochester, N. Y.	385.00

Inasmuch, however, as the electric service as supplied by the Detroit Edison Company has occasionally been cut off for a short period it was thought that it would be better perhaps to operate this fire alarm signal from a storage battery.

For this work the Federal Electric Company have made a quotation on one 3 horse power double head siren complete with storage battery for operating the same, $856.00.

As a further precaution against being without water in case of interruption of Detroit Edison Company's service supply we have received proposals on one gasoline engine driven generator of sufficient capacity to supply two of the pumps.

Allis Chalmers Mfg. Co., Milwaukee, Wis.	$4,625.00

For three brick houses to be erected to contain the three pump outfits the following prices were received:

Hazelton & Clark Co., Detroit, Mich.	$5,390.00
James A. Meagher, Detroit, Mich.	$5,105.00

The following proposals were received for foundations for the water tank:

Hazelton & Clark Co., Detroit, Mich.	$1,800.00
James A. Meagher, Detroit, Mich.	1,550.00

The above items are the only ones upon which definite prices could be received at this time on account of possible changes in the location of the wells.

We have, however, received figures based on a price per thousand feet for the electric cables which will be required to connect up the motors for the pumps and we have also received a price per ton on the cast iron pipe which will be necessary for the extensions and connections to the water mains.

Taking the above figures as the basis of our estimate and making due allowance for the labor and incidental expenses of installation of the same we feel that the following amounts are sufficient to cover the total cost of the changes and extension to the water works system contemplated at this time:

Pumps and wells	$ 36,000.00
Pump houses	8,000.00
Automatic control of motors	2,600.00
Extension to water mains	26,900.00
Electric wiring connections, switch boards and connections in the pump houses	14,000.00
Fire alarm siren and batteries	1,000.00
Gasoline engine and generator	6,000.00
Water meters and recording gauges	2,000.00
200,000 gallon gravity tank on 100-foot tower	12,500.00
Foundations for gravity tank	1,600.00
Engineering expenses	5,000.00
Total	$115,000.00

Coming Events

The Baraca Class of the First Baptist church will hold a Hallowe'en social Monday evening, Oct. 31. All members are invited to be in attendance. A splendid program is promised.

The Married People's Club is entertaining in the Johnson-Shaw hall the evening of October 31 with a dancing party. This event is the first of a series to be given this winter.

The B. Y. P. U. of the Baptist church will gather for their regular monthly meeting Tuesday evening, Nov. 1.

The annual meeting of the Red Cross Membership will be held at Pontiac in the Board of Commerce the 1st of November. All local members are expected to be present.

The B. Y. P. U. of the First Baptist church will give a Hallowe'en party Monday evening at the church.

The Oakland County Federation of Women's Clubs will be held at Orion Wednesday, Nov. 2. A large number of local club women will motor to Orion for the event.

The Birmingham Gun Club will hold a regular shoot on their grounds the afternoon of Nov. 2, followed by a dinner in the club rooms. A smoker will entertain the men during the evening.

The local W. C. T. U. will meet at the home of Mrs. James Valentine of Worth street, the afternoon of Nov. 2.

The annual parish supper will be held at St. James Episcopal church the evening of Nov. 2.

The third Thimble Party of the Eastern Star Order, of Birmingham, will be held Nov. 2, at the home of Mrs. R. J. Taylor of Southfield avenue.

The W. B. A. of Birmingham will entertain with a dancing party this evening in the Johnson-Shaw hall. The affair will be in the form of a Hallowe'en party and the favors, decorations and features will be carried out in Hallowe'en style.

Today, Friday, is the last day of the Teachers' State Institute being held at Detroit. All of the teachers from Birmingham have been in attendance during the two days and the local schools have been closed. Studies will be resumed next Monday.

The Ladies' Aid Society of the First Baptist church will hold a baked sale Saturday, October 29, at the Schlaack Meat Market.

Mrs. Ernest Baily of Hamilton avenue, will entertain the members of the Eastern Star Order at her home Saturday evening at the third party of a series to be held this winter. A prize will be given to the winner at the close of the evening.

The Epworth League of the M. E. church will give an old-fashioned Hallowe'en party in the Sunday school annex Monday evening, Oct. 31. Everyone will be in masquerade costume and the program for the evening has been prepared with a great deal of care to make it one of the most successful of the social season.

November 1 is All Saints' Day. Memorial services as usual will be held in St. James Episcopal church for all those who have died and for whom services have been held at the church during the past year.

NARROWLY ESCAPE DEATH FROM GAS ASPHYXIATION

Mr. and Mrs. William Landon and their niece, Helen Bollanger, who reside just south of Birmingham, have practically recovered from gas asphyxiating which occurred early last Monday morning. The family was found by Winfield Salsaco, a milkman, who discovered Mr. Landon lying on the floor in front of the kitchen stove, unconscious. Mr. Salsaco called a physician from Birmingham and the two investigated and found all three persons unconscious from gas fumes from the living room stove. They were given the proper attention and are now recovered under the physician's care for several days.

VILLAGE COMMISSION TO CALL AN ELECTION FOR BOND ISSUE

(Continued from page 1)

It was thought for a time that the spring rush season could be furnished a sufficient supply. When the water-head lowered in mid-summer, we hastened to erect the 300,000 gallon storage tank which is now in full operation and to the use of which we are enabled to deliver into the business section of the town at the rate of 1,100,000 gallons per day or 750 gallons per minute. This flow of water can be continued for at least eight and probably ten hours. This is more than twice as much water as ever could have been delivered before.

This unit having been completed, the Commission is now ready to take up further extensions of the wells and mains which they could not practically do before, because they did not know what water could be taken out of the old basin or where or what the extensions should be.

The Village Commission has been planning for extensions of both water and sewers and they are now ready, because they deem it wise to do so, to create at least one more pumping unit either adjacent to or at a distance from the present water basin. This pumping unit would be an addition to the present well and pumping facilities, and while some may not think it necessary, we deem it wonderful advisable to secure this extension before the hot weather in 1922.

The Village Commission proposes to preserve every dollar of value in the present water works and well plant and machinery. We believe it would be suicidal and absurd to throw away or discard seriously the water plant we have developed in the last thirty-one years and embark upon a practically new scheme absolutely without certain of anything. Would the fact that somebody would guarantee for eleven or twelve months a certain quantity of water from a certain group of wells located in uncertain places at a vast expense and with the understanding that such a guaranteeing company should pick up their traps and go away, or remain by driving a bargain with a town that at that time would be practically helpless, be a good business proposition? Would you not rather retain this one million gallon plant and add to it by one or even two pumping units at probably a quarter of the expense and perhaps much less?

This is not the time for a bond issue of $115,000 to suit the fancy of somebody. This is the time to make every dollar count in a frugal manner. We are going to have water to supply every need and in a few days the Village Commission will announce the probable cost of any additions to the present system which are necessary to produce these results.

At Tuesday's mass meeting of 90 people nobody cared to make a motion to enter petitions to be circulated to compel the Village Commission to do certain things whether they agreed with it or not, so the chair just declared he would see it was done; no one moved to ask the people to double the present long-term (20 year) bonds in our treasury, so the chair said he would put in the petition $115,000 worth of bonds. This was indeed a funny mass meeting. Who runs this Citizens' Water Committee? A poll of those present would doubtless have shown a majority against such a needless issue of bonds.

W. D. CLIZBE, Village President.

CHURCHES

Reformed Presbyterian
11:00 a.m., church service and Sunday school; Wednesday evening, 7:30, young people's meeting. Everybody welcome.

Holy Name Parish
Mass every Sunday in the Johnston-Shaw hall, 10 o'clock. The Rev. William W. Ryan, pastor.

First Baptist Church
Rev. F. M. MacKay, pastor. 10:30, morning worship, subject, "The Holy Spirit in This Dispensation"; 11:45, Sunday school; 6:30, young peoples' meeting; 7:30, Evening service, sermon subject, "Who is God?" Good singing.

St. James Episcopal
Twenty-third Sunday after Trinity. 8 a.m., Holy Communion; 10:30, morning prayer and sermon; 12 m., Church school; 5 p.m, evening prayer with address.

Tuesday, Nov. 1, All Saints' Day—9:30 a.m., Holy Communion.

Christian Science Society
Services at Church Building, Woodward avenue, south of the D. U. R. Waiting Room.
Sunday, 11 a.m.
Sunday school same hour.
Wednesday evenings, 8 o'clock.
All are invited.
Free Reading room, open Tuesday, Thursday and Saturday from 2:30 to 4:30 p.m. and Wed. from 7 to 8 p.m.

Birmingham Gospel Tabernacle
Revival meetings now going on. Mr. F. D. Chamberlain of Los Angeles, Cal., is here. Come with us and we will do thee good. Every day, except Mondays, 7 and 7:30 p.m.; Sundays, 10:30, 11:15 a.m., 3:00 and 7:30 p.m. Wm. B. Dunn, pastor.

Birmingham United Presbyterian
Rev. David H. Curry, pastor. Bible school, 1:30 p.m.; preaching, 2:30 and 7:30; young peoples' meeting, 6:45; prayer meeting Wednesday, 7:45, choir rehearsal at 8:30; Juniors every Wednesday at 4 p.m. Next Sabbath evening there will be special music and the pastor begins a series of sermons on "Night Scenes in the Life of Christ."

Methodist Episcopal
Sermon subject in the morning, "Good Reading." This is good literature Sunday, all over the country. "The kind of reading that Methodists should keep in the home" will be the subject of sermons. Sunday school at noon. Epworth League at 6:30. The sermon subject at night "Heart Hunger." The people are coming to the night services, they seem to like them. Special musical treats every now and then. Watch for the coming of Harold Jarvis.

First Presbyterian Church
According to the announcement made last Sunday by the pastor the sermon topic at the morning service at 10:30 will be, Mr. Arthur F. Southwick of our Board on "Temperance and Moral Welfare." In the evening at 7:30 there will be first one of our popular song services, Real Community singing. Following this will be an Open Forum led by Dr. W. S. Fleming of Chicago. Dr. Fleming is a representative of the National Reform Association. The subject for discussion Sunday evening is "The Sabbath Question."
