PERSONALS

Mrs. C. W. Crawford of Bates street, was very pleasantly surprised last Wednesday when a party of friends came over in the afternoon to take her for a ride and on their arrival home—lo and behold!—the house was decorated in pink and white and a number of guests were there to welcome her home. The event proved to be a surprise party in honor of her seventieth birthday. A very pleasant evening was spent at the house and lunch was served at a table which was beautifully decorated with pink and white asters. Place cards were laid for Mrs. Sarah Aldrich, Mrs. Rose Permenter, Mrs. Rose Houchen, Mrs. Hall, Miss Anna Hall, Mrs. Thomas Koontz, Mrs. Fred. Crawford, Mrs. Erwin Voorheis and Mrs. Cassius Crawford.

Of course, if we have anything new, we want to try it out and George Anderson of Ridgedale avenue, doesn't claim to be any exception. To prove the fact, Mr. and Mrs. George Anderson, and Mr. and Mrs. James Anderson of Park street, motored to Toledo, Sunday, to visit friends in that city. The trip was a very pleasant one and George's new car was altogether very satisfactory.

Friday night, Mr. and Mrs. Eliott Slocum Nichols entertained a number of guests at a buffet supper in honor of Henry Bell of Bayfield, L. I. Their guests were Mr. and Mrs. E. P. Hammond, Mr. and Mrs. Deane Rucker, Mr. and Mrs. Frances Palms, Mr. and Mrs. George T. Hendrie, Mr. and Mrs. T. P. Donovan and Gordon Mendelssohn.

Having spent the summer traveling through England, France, Switzerland and Belgium, Mr. and Mrs. William T. Barbour and the Misses Irene and Ella, have returned to their home at Briarbank, this week. William, Jr., returned to Andover to attend college this week and Miss Ella will leave next week for "Holton Arms", at Washington, D. C.

Mr. Almeron Whitehead, president of the First National Bank of Birmingham, who has been confined to his bed for a week, has recovered sufficiently to have been able to continue his work this week.

This week has marked the event of the departure of Marjeline, daughter of Mr. and Mrs. Percy Parmenter of Brown street, who has returned to Syracuse to resume her studies at the University in that city.

PEOPLE'S COLUMN

This column will be devoted to the publishing of letters of general interest to the residents of Birmingham and nearby. All communications must be signed in full by the writer. Letters should preferably be written with typewriter and on one side of paper only.

To the Editor:

It has taken 32 years to develop the present water works into an almost perfect condition. We have a splendid quality of water and in the last two years we have developed a vastly increased quantity, while the pumps will now deliver nearly double the water in the same time, and the 300,000 gallon storage tank, if used properly, permits 24 hour pumping so that the wells we have would permit at least one-half more water than was sold to the people during the past year. Efficient work by a steam plant means constant use because it requires a steady fire. It is proposed to keep fire under the boilers but not use it except in case of fire, the breaking of the electric current, burning out of motors, etc., when after a delay of 40 to 60 minutes the steam plant could be put in motion and the pressure in the mains run up to 75 pounds.

The water works is now using much less coal than it did a year ago and the present cost of pumping is "estimated" much too high, and the cost really is much higher than it would be if the authorities would sell all the water the wells and pumps could deliver instead of choking the citizens into one hour's use and then all at once.

In other words, if the citizens could use the water at all times, and at their convenience it would cost less to produce and would be more satisfactory than it the present system.

We do not need more tanks but we could improve our use of the present equipment.

Wilmott H. Wood,
304 Southfield Avenue.
