To the Honorable Board of Supervisors:

Your special committee to whom was referred the proposition of building one for County Office Building and Court House, beg leave to report that they have had the same under careful consideration and are agreed upon the necessity of securing such a site at once.

We fully realize the necessity of constructing an office building at least, as soon as the present building program is completed and if we acquire a site now we will be independent of any advance in price which is sure to occur. If it develops later that we can sell more the present Court House then all we have to do to provide for our needs will be to add enough stories to the office building to furnish the necessary rooms. We have had two sites submitted. One one hundred and eighty by one hundred and forty feet on Wayne street just north of the Presbyterian Church for 17,000.00 dollars with an income of practically 5,000 dollars a year and one one hundred and twenty by one hundred and forty feet south of and adjoining the old Jail site, for eighty four thousand (84,000) dollars with an income for 6,000.00 dollars per year.

Your committee believe the latter site to be the most advisable, and we recommend that the offer of the Bloomfield Hills Land Company for this property be accepted and that the Board of County Auditors be instructed to carry out the same.

We further recommend that the sum of twenty thousand ($20,000.00) dollars be placed in the budget for this purpose.

To the Honorable Board of Supervisors:

The Board of County Road Commissioners for Oakland County has prepared and hereby reports for your consideration a map upon which is shown the highways which in the opinion of the Board of County Road Commissioners should be laid out and established as part of the plan of highway development for the County.

In preparing this plan the Board has endeavored to consider the necessities of the various parts of the county and the probabilities of future development. The Board believes that the day for haphazard development has passed and that the highways of Oakland County should be surveyed and developed according to some systematic plan, and believing this have prepared this general plan of highway development.

Also the Board of County Road Commissioners have adopted the following resolutions August 18th, 1925.

Resolved by Commissioner Lytle, seconded by Allen, that—

Whereas, the development of much of Oakland County has been so rapid that lands in all parts of the County are being divided and platted, and the necessary steps for a suburban population thereby laid, rendering it not only desirable but imperative that some general plan as to the width of highways throughout the entire County should be adopted.

Therefore be it resolved:

1. That the map showing plan of Oakland County Highways as prepared under our supervision and direction be approved and the same is hereby adopted as the "Plan of Highway Development for Oakland County" shall be platted that said public highway shall be one hundred six (106) feet in width.

(b) That no highway, road or street of a width of less than sixty (60) feet shall be laid out or established.

(c) No new highway shall be laid out independent or apart from any plat of a width of less than one hundred (100) feet.

(d) No highway or part of highway which wholly or in part borders upon any lake shall be discontinued either wholly or in part.

Ayes: Gross: Thompson—Yes.
Thos. Lytle—Yes.
Luther Allen—Yes.

The Board of County Road Commissioners respectfully submit this report for the consideration of your honorable body in assuring us that the matter deals with the various portions of the County.

Under the amended platting law the plan of highway development adopted shall govern the various townships in the approving of plats and the board of county road commissioners respectfully submit the plan and solicit your collective and individual support in carrying out the same.

All of which is respectfully submitted.

G. ROSS THOMPSON,
THOS. LYTLE,
LUTHER R. ALLEN,
Board of County Road Commissioners.

Filed October 26, 1925.

Moved by Bond, supported by Brooks, that the report be accepted and adopted.

To the Honorable Board of Supervisors:

Your special committee appointed to investigate the offer of the Davis Investment Company to deed to the County certain lands in the township of Springfield for park purposes, subject to certain conditions and reservations, beg leave to report that they have considered several propositions on the subject and have finally obtained a written proposition which is hereto annexed and made a part of our report.

The committee would further report that in their humble judgement it is an opportunity on behalf of the County to obtain a tract of land for park purposes under such conditions and terms that the County cannot well afford to reject.

We, therefore, urge the acceptance of the proposition.

All of which is respectfully submitted.

ANDREW SEELEY,
JAMES E. LAWSON,
F. H. LESSITER,
Special Committee.

Pontiac, Mich., Oct. 21st, 1925.

Mr. R. Clark,
Chairman Finance Committee,
Pontiac, Mich.

My Dear Mr. Clark:

Confirming my conversation with the committee appointed by the Board of Supervisors relative to the gift of my father of the land in Springfield township, for Golf and Park purposes I beg to advise you as follows:

The Davis Investment Co. will deed the farm of 173 acres in Sections 17 and 20, Springfield township, to the County of Oakland for Golf and Park purposes, subject to the following reservations:

1st. That the property shall be used for park purposes.

2nd. That Davisburg shall be a part of the title name of the park and golf property.

3rd. That all land lying in section 17 north of the angling road shall be deeded subject to the above reservation, and in case the County shall cease to use the property for park purposes, then the same shall revert back to the Davis Investment Co. or their successors or assigns.

4th. That all land lying south of the angling road in Sections 17 and 20 shall revert back to the Davis Investment Co., its successors or assigns, if the County does not commence the construction of a golf course on either parcel within a period of five years.

The land being so adapted for park and golf purposes, we would very much like to see the golf course started before the five-year period. The golf professional I have had on the ground state that it will make one of the best and sportiest golf courses in the County. After a careful survey of the matter, I am sure that it will be self-supporting within two years after its construction.

Thanking you for your consideration in the matter, I am

Very truly yours,
MANLEY D. DAVIS.

To the Honorable Board of Supervisors:

Gentlemen—Your committee on drains wish to make the following recommendation:

As the bonds and coupons on the Hoyt Bond Drain are continuously coming due we feel that it would be better at this time to make provision for the State's portion of same (or the State Hospital's tax), until such time comes when it is paid.

We therefore recommend that this Board appropriate $100.00 this year for same.
