More Fame for the Bean

If all the baked beans canned and in cases were piled one upon case they would make nine piles each, equal in size to the Washington monument. Beans produced in the United States for a single season would make this possible, according to statisticians in the Department of Agriculture.

WE HEARD IT SAID BY—

(Little Editorials picked up by the Staff in and around Birmingham.)

H. B. Clement: "As an ex-member of the Library Board I am most heartily in favor of the proposed Library, Fire Hall, and Civic Center bond issues. I hope every well wisher of the future of Birmingham will vote 'Yes' on these propositions July 29, 1926."

Thomas Lytle, member of the Oakland County Road Commission: "The roads in Oakland county in general are in excellent condition and the progress of our road building program is far ahead of that in previous years. This I contribute to the good cooperation and unanimous harmony of the Road Commission and our entire personnel. A few years ago it was hard for us to make rapid progress that we should have, but today is another day and that is why you can find steam shovels and concrete mixers in many sections of Oakland county actively engaged in the making of hard surfaced roads."

Louis Hascall, Realtor and ex-candidate for school board: "I want to thank those who supported my candidacy in the recent school election. The vacancies were filled by very good men. Good schools mean much to any community but especially to Birmingham with its close proximity to Detroit. Let's all get together and support these men who are taking the brunt, and make Birmingham school the best in the state."

Arthur Hartwell: "I believe that the Board of Education should have a fund of $50,000 or more for the purpose of purchasing property for school sites to take care of future growth in our schools.

FINGERPRINT FILES NOW IN POLICE OFFICE

The Birmingham Police Department will shortly place in effect a finger print division in the local police offices, according to Sergeant Clark Green who will be placed in replicas of which have aided in the positive identification of countless criminal cases throughout the country in the past few years.

A cabinet in the office of the chief of Police, James Anderson, will house the necessary elaborate card index arrangement. All felony cases arrested here will hereafter leave their fingerprints somewhere in these files, a duplicate of which will be sent to state authorities, where classification of each one can be made.

An expert from the state capitol is expected soon in Birmingham for the purpose of instructing the local officers in the correct methods of taking fingerprints.

SCHOOLS UNDERGO SUMMER REPAIRING

While vacation time means a period of rest and enjoyment for pupils and teachers in our schools, it does not always mean that for the building and workmen, as is shown by the repair work and cleaning that is taking place in our various school buildings.

In the Baldwin and Pierce schools which are of more recent date than our other buildings, the repair work is very limited but cleaning and decorating are being done to some extent.

A few changes are being made in the Baldwin high school manual training and sewing rooms. Due to the increased demand in this work, the space allotted is not adequate to accomodate all who wish to pursue these lines of work. Thus changes are being made only to meet this new situation which is arising.

HANNA STREET TO HAVE SEWER LAID

The second resolution on the Hanna street sewer was passed at the regular meeting of the village commission Monday night. The laying of the sewer will take place shortly, the expense of the installation to be borne in part by the village and in part by the residents benefitting. The beneficiaries' portion will be $326.67 and the village's $53.33.

Fact and Judgment

In accordance with a decision made by the village commission at their Monday night meeting, a hearing with regard to the opening of Lincoln avenue from Southfield avenue to Cranbrook Road, has been scheduled for the evening of July 26 in the village commission offices.

Some time ago the matter was broached at a commission meeting, but no definite action was taken. It was decided by the legislators of Birmingham Monday that the time was opportune to learn the opinion of residents and taxpayers pertinent to this particular street opening, hence the date for a public hearing was set.

According to village officials the cost of the project would be in the neighborhood of $100,000.

First Recorded Eclipse

Eclipses were predicted by an Athenian named Calippus in the year 336 B. C. The first eclipse recorded in history happened on March 13, 721 B. C., according to Ptolemy. It was an eclipse of the moon, and was observed with accuracy at Babylon in Mesopotamia.
