Our volunteer fire department met Monday night for a few practice runs to lengthen the wind of one or two members, and to improve the team work in general. But after the first run the practice had to be called. Even the excitement had reached such a high pitch over town that several people couldn't sleep much all night.

There was a full attendance at this week's meeting of the Woman's Discussion Club to hear the noted lady speaker who was invited down from the city. Everybody agreed that the talk was very inspiring, and after the adjournment, several members got together privately and wondered how to get a pattern for the dress the lady wore.

Miss Mabel Young has reminded us that when we made mention of her vacation in the city, we said she was up there two weeks, when as a matter of fact it was two weeks and three days. We don't know how we slipped on that, for we were perfectly aware of the exact time of her return. Anyway, she is hereby given the benefit of the other three days.

Old Cap Bowers has been provided with an easy sitting chair which he is enjoying immensely. Miss Dora Davis called up Silas Walker, one of our hardware and furniture men, and asked him to donate the chair from his store. Silas didn't hardly see how he could. But Dora caught him when several prominent persons were within hearing, and told him how nice it was that he had agreed to give the chair. Silas bit his lip and said he'd send it over.

A good many people had to leave the Gem Theater Saturday night before the show was over. Earl Smiley, who was up on the front row, had put too much of a new kind of perfume on his clothes, and it caused several to have to seek the air. Some mighty strong comments were made by those who had to go out.

Leaner Martin has remodeled an old piano box and transformed it into an ice cream stand on the postoffice corner. He wheeled the box down there Saturday morning, and ten minutes later he had up a big sign saying that he was open for business.

Professor Bundy caused his wife some embarrassment again last Sunday. He came into church after she was there, and sat down in another seat. Mrs. Bundy was agonized to see that he had left a big patch of lather on his face when he shaved, and she tried desperately to signal the information to him. But he misunderstood and kept trying to fix his tie until he had it in a bad shape.

Asa Puckett, who has been held down to a creeping walk for two years with rheumatism, found out Tuesday that he is still tolerably active in a pinch. He was leaning on his cane down by the depot when Mrs. Lucy Baker tried to pass by in her Ford. She took a wrong turn somehow and headed right at Asa. He jumped the iron railing on to the depot platform without touching it, and he claims now that it loosened him up so that it's helped him considerably.

A good deal of curiosity was aroused by a big box which came to Sidney Moon by express. Some guessed it to be a phonograph, but others thought it was more in the shape of a refrigerator. Mrs. Elmira Peek tried to slip over for a good look while the box was still in the back yard, but Moon's new bull dog wouldn't let her get anywhere close.

Uncle Bill Bobbitt thought for a while Friday that he had lost his pocketbook. Some couldn't understand why he wasn't worrying about it, for it contained all the money he had. But he said he had been brought through a lot of narrow places in his life, and he had full faith that he'd get by from here on. A little later his dog came in out of the yard carrying the pocketbook.

Miss Mellie Robbins has received the new dress which she ordered from a catalog. But somehow it doesn't look on her like it did in the picture, so she thinks she'll send it back.

CHEVROLET BUILDS 77,241 CARS IN JUNE

The gigantic manufacturing organization of the Chevrolet Motor Company rose to new production in heights during June when it built 77,241 passenger cars and trucks, a greater number of units than the company ever had produced in a single month.

No other manufacturer of modern three-speed transmission automobiles has approached this production which culminates a series of monthly production records established by Chevrolet.

The months of April and May of this year saw Chevrolet reach successive record production totals of 71,157 and 74,617, respectively. The new record established in June exceeds the May total by 2,624 units and dwarfs the production during June of 1925 by a margin of 22,295 units.

The aggregate production for the first half of 1926 was 384,573 cars and trucks. During the first half of 1925, Chevrolet's greatest year, the company produced 249,834 units, a total which was passed early in May of this year, which is 134,739 units less than the first six months of 1926 production.

The surprising growth of the Chevrolet Motor company is indicated by the fact that the production during the first half of 1926 equals the entire production during the first seven and one-half years in the company's history.

Details of the company's recently announced $10,000,000 expansion program are going forward and completion of this project will give the company a production capacity during 1927 of one million Chevrolets.
