
SAFE from these Two Thieves

What a comfortable feeling it is to know that in your safety box at the bank there are policies which protect you from theft and from fire!

Side by side, these two thieves of the night are ever ready to place grasping fingers upon your home—your valuables.

Fire and Burglary insurance may be had in so many convenient and economical forms that it seems almost inconceivable that people should neglect to take advantage of them.

LABORATORY SHOWS GAIN IN 4 MONTHS

Newitt Pleased With Results From New Office

RULING IS GRANTED

With a record of only four months activity a report of the laboratory operated in connection with the village health department shows 1,204 tests made.

Work for the past month is nearly double of that of January, the report shows, with 348 laboratory tests recorded against 249 of January.

The work which is being done by Miss Clara Diekman, laboratory technician, in connection with the health department, includes throat cultures, milk and water tests and miscellaneous tests. Throat cultures are the most numerous of these the month of March alone showing 265.

"That the laboratory is filling a need in the village is shown by the record for the first four months," Dr. A. W. Newitt, health officer, said. "I feel that it has played an important part in the diagnosis of contagious diseases and is fast becoming a factor in village health."

The village commission Monday night provided a fee for tests made that are not for contagious diseases. Their action followed a request made by Dr. Newitt that policy in this matter would be decided.

Which Policy is Best?

When an insurance man comes to see you and talks his business, you may be very much inclined to grow impatient with him—not see him at all, perhaps.

But, to an important extent, he is doing his best to safeguard you from yourself.

To do without fire insurance is as short-sighted as to do without life insurance. Indeed, insurance of all kinds is man's best protection against what he pleases to call either "fate" or "ill-luck."

Consult us in this important matter.
