"QUALITY EDUCATION PREFERRED," SCHOOL BOARD CANDIDATE SAYS

Dr. Hutchinson, who has announced his candidacy for the Birmingham School Board and who for 10 years was professor of Adjunct Anatomy at the Detroit College of Medicine, expresses the following views on the duties of a member of the Birmingham Board of Education:

"In announcing my candidacy for the Board of Education, I am prompted solely by a desire to do my share toward the growth, development and betterment of the Birmingham School system. The growth of our village in the past few years has resulted in a great increase in the number of public school pupils and there is every reason to expect that the next few years will show an even greater increase.

This development naturally brings problems of accommodation, and administration to the school board which will require careful study and consideration, both as to the economical expenditure of school funds and the development of the standards of education. It is essential that the growth of the school system keep abreast of the increase in population but it is still more essential that the educational standard be of a quality surpassed by none.

The character of our population in Birmingham is not one which, as a whole, necessitates any of the so-called 'mass production' which exists in the public schools of some of the larger cities, and it should be the effort of the school board to maintain an educational standard that will rank with the best in the land. It is my opinion this can be done.

"I have no preconceived ideas or fads to promote in the educational system but I feel that all of us who have children in the schools are vitally interested in the administration of the schools, and if elected I will exert every effort to properly administer the duties of that office."

SEMDAC AUTO POLISH
Dissolves the dirt...but not the surface

Some polishing agents are too zealous. They'll take off the grime and in time the lacquer as well.

Semdac Auto Polish restores the high brilliance of your car, with a minimum of rubbing. It won't injure any surface. It gathers up the grit and dust.

Semdac is easy to apply—easy to wipe off to a bone-dry luster. And its high finish lasts for an extremely long time. Try it today!

FIRE DESTROYS SUMMER HOME

Fire of an undetermined origin completely destroyed the summer home of Alex Lindsy, Bloomfield road on Walnut Lake, early Saturday morning.

The Keego Harbor fire department answered an alarm but the house had burned to the ground before the department arrived. No one was in the home at the time. The Lindsys are residents of Detroit.

What? No news yet of the 1930 crop of channel swimmers?

Attacks Bishop

Photo Shows Representative George H. Tinkham of Massachusetts, leaving the Capitol building at Washington after his fiery speech on the floor of the house in which he attacked Bishop Cannon, Jr. Tinkham arraigned the bishop for his refusal to tell the senate lobby committee what happened to the $48,300 intrusted to him, allegedly for anti-Smith campaigning in 1928.

This season YOU CERTAINLY CAN AFFORD GOODYEARS

THERE never has been a time when the tire-buyer's money could buy as much as right now.

Rubber's cheap—and consequently tire prices are the lowest they've ever been.

People with an eye to values are seizing this chance and making the most of it.

Now is the time to get YOURS

They're buying Goodyear Tires—because right now they can buy them for as little as they used to pay for inferior or unknown tires.

Why are they singling out Goodyear Tires with especial insistence as against all others?

Because Goodyear Tires are definitely superior in tread and carcass, the two main parts of a tire.

The Goodyear All-Weather Tread is superior in *traction.*

The Goodyear Supertwist Carcass is superior in *vitality* and long life.

You are not asked to accept these statements without inquiry.

Any Goodyear Dealer will be glad to demonstrate the facts.

The facts certainly are: Goodyear Tires *do* give greater value.

As far back as 1916, it became a fact that *more people ride on Goodyear Tires than on any other kind.*

Every year since that time it has been increasingly true that *more people ride on Goodyear Tires than on any other kind.*

Today this preference for Goodyears runs into millions: *millions more people ride on Goodyear Tires than on any other kind.*

More Goodyear Tires than any other kind annually leave motor car factories on new cars—more Goodyear Tires go into service through the great Goodyear dealer organization—more Goodyear Tires are used by transcontinental, urban and interurban buses.

There can be only one conclusion: Goodyear Tires *must* be better—and at present prices they are a matchless bargain.

Now is the time to get yours.
