WE HEARD IT SAID BY—

The Rev. W. Hamilton Aulenbach, assistant rector, Christ Church Cranbrook: "I never have argued that football has no place in the observance of Thanksgiving, or that the day should be spent in sitting around twiddling one's thumbs. The Thanksgiving spirit should be one of jubilation, and I think that both football and turkey have a part in it. What I do argue is that the church also has a part in it, and that there ought to be a fair balance between the three. I don't object to Birmingham and Royal Oak High Schools playing football on Thanksgiving Day. What I do object to is their playing at a time that makes it necessary for Birmingham's union church service to be held at the ridiculous hour of 8 o'clock in the morning, when it can't amount to anything. The football game should be played either very late in the morning, or in the afternoon."

Radio Club Builds Antenna System

Construction of an all-wave antenna system on the roof of Baldwin High School has been completed by the school's Radio Club, the members of which are now planning to build various receiver circuits and conduct experiments in radio theory.

The Radio Club, one of the three divisions of the Science Club, meets every Thursday evening under the leadership of Arnold W. Berndt, faculty advisor. Elmer Meeker is the organization's president and Richard Painter is the secretary-treasurer.

The other two divisions of the Science Club, the Astronomy and Camera Clubs, are not yet fully organized, but expect to develop their programs within the next few weeks. The club as a whole has a membership of 75 students, and meets every Thursday afternoon during the school activity period from 1:15 to 1:45 P. M.

REALTORS TO MEET

The brokers division of the Birmingham Real Estate Board will hold a dinner meeting at 6:15 P. M. today in the Community House, it has been announced by W. Whiting Raymond, president.

HARSCH GIVES SCIENCE TALK

(Continued from Page 2, Part 2)

and man, Mr. Harsch made clear that the basic position of Christian Science is that God is good and good alone, neither knowing nor being capable of knowing evil or sending aught but good to His children. From this he concluded that a good God, conscious only of good, could not conceivably create anything of which He was not conscious; therefore all which He creates must be good.

Basing his statement on the Bible declaration that "God created man in His own image, in the image of God created He him," he affirmed that the good God who is the one and only creator could create no other man than a good one, a spiritual man, a man made after a model infinitely perfect.

In this connection, Mr. Harsch explained that the seeming mortal man may become conscious of his true estate, his truly real being, and thereby manifest his God-given dominion, through recognition of and steadfast insistence upon the reality of good, and good alone; through sincere and spontaneous gratitude for benefits already enjoyed; through a constant, conscious desire for a larger understanding of God as infinite good. When this mental attitude is attained, he declared, the eternal Christ is consciously present; this is the very presence of God Himself, in a manner which the human consciousness recognizes and understands.

Mrs. Eddy's Vision

When Mrs. Eddy caught the glorious vision, Mr. Harsch declared, it was inevitable for her to conclude that the divine mission of the ever present Christ was to reveal God to man, and she knew that the presence of the Christ, Truth, would be universally proclaimed in a language that would bring to the sick the truth of the healing Christ; a language which would bring to the discouraged and disconsolate the ministering touch of a comprehending Christ; a language which would convince the friendless and alone of the very presence of a compassionate and friendly Christ.

She knew that this must be the language of an "understanding heart;" for she knew that human compassion and sympathy, however sincere, are insufficient, that no healing could be Christ-healing that was not based on understanding. Understanding, as Mrs. Eddy perceived it, the lecturer pointed out, is very substance itself, "the substance of things hoped for, the evidence of things not seen."

While divine Life is unseen by the human senses, divine Love unheard by the human ear, the touch of infinite Spirit unfelt by a material body, yet, according to Mr. Harsch, the human body is very definitely touched and healed by what seems to be the very presence of God as Life, Truth, Love and Spirit, and he emphasized that healing of every sort is accomplished by the Christ-understanding, the Christ manifestation of the power of Principle, the touching of human consciousness by the Christ, which so transforms and regenerates it that the body responds with new vigor and health. Mr. Harsch held that this is understanding; it is the evidence of things unseen.

In concluding, Mr. Harsch assured his listeners that it is the language of heart, words inspired by the Christ-love alone, that conveys this understanding to human consciousness, and opens it to a still farther entering of the healing, comforting, regenerating Truth. At the Christ, Truth, penetrates the recesses of long-darkened thought, he declared, men are brought to realize that God is Life, Truth, Love; that man is mental, spiritual, not material, and that Heaven is here and now.
