Two Local Pilots Join Aerial Trek

Dr. J. J. Robb and Albert L. Mathews, both of Birmingham, were among the 44 private plane owners in the state who joined the Aerial trek to Land o'Lakes, Wis., last week end.

The trek was similar to other air tours sponsored by the Michigan Department of Aeronautics and was a three-day outing.

The air-minded sportsmen who flew their own planes on the jaunt brought along their fishing and other sporting equipment, combining the outdoor life with their special hobby of flying.

Wash Hands Before Eating Urged as Polio Precaution

Parents should see that children wash hands thoroughly before eating as one precaution against polio, particularly during the summer epidemic season, according to the National Foundation for Infantile Paralysis.

The National Foundation through its local chapter is issuing a series of six simple health rules that should be observed during the summer to help combat the disease.

Scientific studies, financed by March of Dimes funds, indicate that the hands may be a means of spreading the virus infection through contamination of food, drinks or objects carried to the mouth.

For this reason, a high standard of personal cleanliness should be maintained especially during the polio danger months—late June through September, the National Foundation cautions, adding that fresh fruit and vegetables should be washed well before eating.

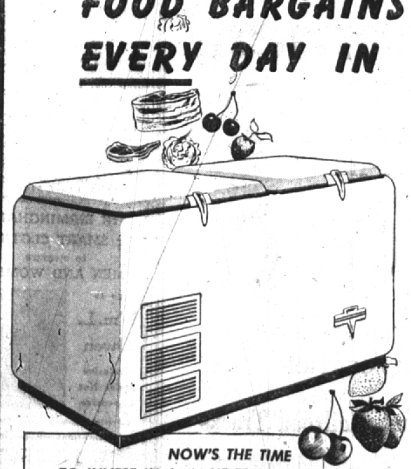
FOOD BARGAINS FOR YOU EVERY DAY IN THE YEAR



SAVE MONEY—SAVE TIME WITH A ROOMY HOME-FREEZER

Strawberries picked this week for breakfast next December! That's how a home-freezer makes your meals so tasteful. It's the economy angle, though, that makes such a hit with farm wives. You save money—with fewer trips to market—fewer purchases of out-of-season foods. You save time—with less marketing—less canning and preserving.

Summer-fresh food the year round means greater variety in meals—plus higher vitamin content than is found in meats and vegetables preserved by other methods. The Home Service Advisor at your nearest Edison office will be glad to give you the details, and advise you about the home-freezer best suited to your needs. Or see your local appliance dealer.

NOW'S THE TIME TO INVEST IN A HOME-FREEZER

The pick of the berry crop is ready for freezing now. And it's only a matter of weeks before late-summer fruits and vegetables will be ripe & ready.
