WE HEARD IT SAID BY—

DAVID B. REDWOOD, Lathrup city councilman: "It took the city of Detroit over 100 years to elect a woman councilman and here, in the progressive city of Lathrup, we have elected a woman to our first council."

PLAY IT SAFE!

Firemen Tell Way to Happy Holidays

MERRY CHRISTMAS TO ALL
FROM BIRMINGHAM
FIRE DEPARTMENT

Make sure the fire place has a protective screen in front of it, if to be used, to catch flying embers.

Exercise extreme caution when placing light cords. Be sure they are out of the way of foot travel and not liable to pull the tree over.

Resist the temptation to use candles. They are pretty but have no place in a home during Christmas with flammable materials around.

Replace all fuses in the lighting circuit that are greater than 15 Amps.

You can reduce the possibility of fire in the home if you take all excessive wrapping paper, etc., outside as soon as gifts are opened.

CHRISTMAS trees should be bought fresh cut and set up with the base resting in a pan of water to keep tree from drying out.

Have all electrical lights checked for frayed and worn wires. When buying a new set insist they be approved by "Underwriters."

Resort to using spun glass and asbestos materials, which are fireproof, at base of tree instead of cotton or tissue paper.

In decorating your home for Christmas avoid the use of flammable material as much as possible.

Smoke if you like—but keep cigarettes, cigars and pipes away from tree and flammable light wrapping paper.

TAKE THE tree outdoors as soon as the needles start to drop; this indicates they are becoming highly inflammable.

Make sure no decorative lights are left on when you leave the house or go to bed.

A careful examination of the house before going to bed for burning cigarettes, checking the furnace and electrical operated toys is a good policy.

Santa Claus and his reindeer will visit you if the above is followed, if not the Red Wagons of the Fire Department may.

Yours for a
Very Merry Christmas
