AGENTS WANTED!

In every town and county in the state we want agents for our new book, "The farmers' Complete Encyclopedia." This is the best farm book published, and the fastest selling book ever offered to the public. None of our agents average less than $5 per week and many sell as many as 30 a day. First, because it is a good, useful, little money. Second, because it is endorsed by the entire State Government of Michigan as the standard work of the kind.

GOVERNOR BEGOLE SAYS:

"I have carefully examined the copy of the Farmers' Complete Encyclopedia" submitted to me and find it as represented, a complete book of reference on all finge topics. It is the only book that ever came under my observation that covered entirely every subject the practical farmer or breeder is interested in. The portions devoted to the diseases of horses, cattle, sheep, swine, poultry, etc., alone, make the book worth many times the price. Every farmer should have it. Even from a physician will, in times of sickness and emergency, appreciate the medical department and the poisons and their antidotes. They are invaluable.

"The book is not only valuable to the farmer, but is as much so to the farmer's wife. No housewife should be 'without one.' As one who has been a farmer I can recommend the work."

Send for circular and terms.
