DKWs and similar Auto Union motor cars are constructed to exceedingly high standards of quality and employ several remarkable features. Their front wheel drive hauls them through sand, snow, mud, ice, where other cars stick or slither. Their three-cylinder 2-stroke cycle engines have only seven basic moving parts. Think of the gas you save with three cylinders, and the lower maintenance costs.

We urge you to visit our showroom, examine these cars, and enjoy a demonstration drive today.
