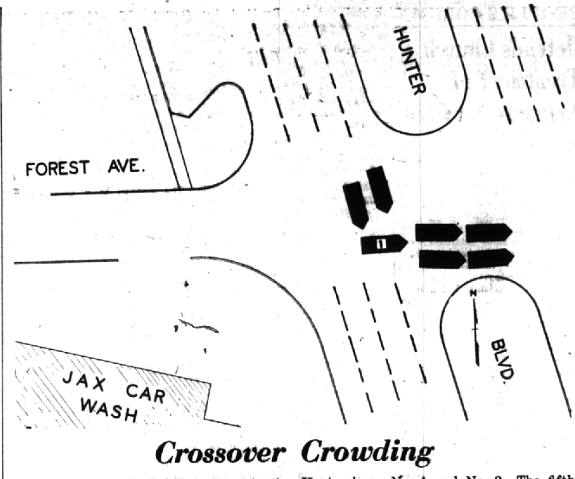
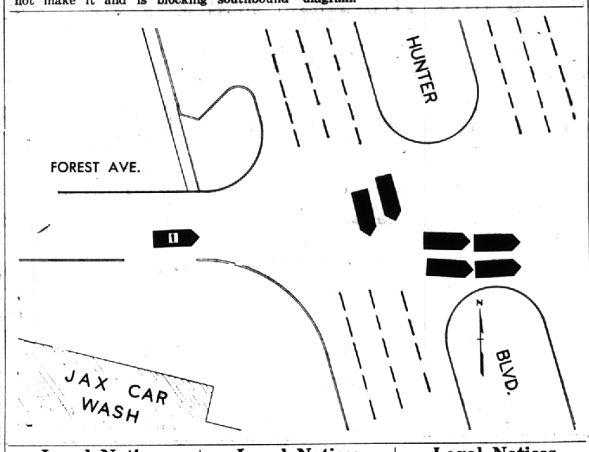
Michigan jumped over the 4-million mark in vehicle licensing in 1963, Secretary of State James M. Hare reports. As well as setting a new all-time record, revenue from weight tax was more than $71-million. Licensing is expected to take another sharp upturn in 1964 because of the record sales year reported by the automotive industry.



Crossover Crowding

What happens when too many cars try to occupy a crossover is shown in the above diagram. Four eastbound Forest vehicles have filled the crossover. The fifth (1) did not make it and is blocking southbound Hunter lanes No. 1 and No. 2. The fifth eastbound vehicle should have waited west of the intersection until space in the crossover was available as shown in the bottom diagram.



No Tax Changes In '63, Says IRS

R. I. Nixon, Detroit District Director of the Internal Revenue Service, said that there had been no change during calendar year 1963 in the amount of tax on both employee and employer under the Federal Insurance Contributions Act (Social Security).

Nixon said the tax of 3% per cent which was imposed for the calendar year of 1963 remains in effect through 1965. It applies to wages up to $4,800 paid by an employer and received by the employee.

The maximum amount of Social Security tax to be withheld from wages due an employee is $174. An individual who has more than one employer may have had more than $174 withheld from his wages. If so, the excess amount is allowed as additional income tax withheld when preparing the tax return.

SOCIAL SECURITY taxes withheld from wages is covered in the instruction books prepared by the Internal Revenue Service and gives the average taxpayer the necessary help to properly prepare his income tax return.

Nixon advised to first read the instructions, then prepare the return. If a question arises, telephone a local Internal Revenue Service office for the answer.

Park Visitors Spent $33 Million

State park visitors spent more than $33 million in Michigan in 1963, the Conservation Department estimates.

The figure takes in spending for gasoline, groceries and other such items by nearly 13.5 million day users and a record 210,000 camper groups. It does not include concession sales revenue nor camping and vehicle permit receipts.

VISITORS TO STATE PARKS and recreation areas in the southern lower Peninsula made the biggest contribution to local cash registers, some $19 million. Recreation units in this part of the state hosted 8.5 million day users and more than 69,000 camping families.

About 3.6 million recreationists and 93,000 camping families flocked to state parks in the northern Lower Peninsula, leaving behind more than $10 million.

In the Upper Peninsula, $4 million was added by 1.3 million day users and nearly 48,000 camping groups.

NEW Fingertip Controlled HUMIDIFIER
operates on less than 1/2c per day!

We all know the benefits of adequate humidification; how it improves health, protects furniture, and saves fuel. The unique operating principal of the Drumatic humidifier gives you all these advantages with the highest moisture output at the lowest operating cost . . . LESS THAN ½¢ PER DAY! And you can dial the desired humidity by means of a Honeywell humidistat that can be placed anywhere in the home for convenient, controlled humidification.

The Drumatic utilizes a polyurethane foam evaporating pad on a motor driven spoked drum which rotates in a pan of water. Calcium deposits are absorbed by the pad—eliminating mineral dust in the air. When the pad becomes filled, it is easily replaced.

The Drumatic will supply adequate humidification for areas up to 3,000 square feet.
