

A DEATH.
To write, or not to write, that is the question. Whether it is better in the mind to suffer the agonies of a long and painful death, or to have a young lady in the throes of an agonizing death, is a question that has troubled the minds of many a philosopher. It is a question that has troubled the minds of many a philosopher. It is a question that has troubled the minds of many a philosopher.

HER PAINFUL DUTY.
Through the illusive glitter of the impression that Bertha Demorest received was that of a girl, graceful, dignified, and vanishing through the dusky gloom of the night. Her eyes were large and dark, and her hair was a mass of golden curls. She was a girl of noble bearing, and her face was a study in itself. She was a girl of noble bearing, and her face was a study in itself.

She was a girl of noble bearing, and her face was a study in itself. She was a girl of noble bearing, and her face was a study in itself. She was a girl of noble bearing, and her face was a study in itself. She was a girl of noble bearing, and her face was a study in itself.

INDIAN MYTHS.
A. Henry Adams and Polythim. J. Tracy Gait, in his journal on "Indian Myths" for August says:
Little by little, as man becomes more civilized, he gives to each great and small spirit a human form, and the combination of man and animal. But the result of the whole will be that out of the human mind will be born a new mythology.
