

The Ancient "Spinster."
 It was when spinning played such an important part in a woman's existence that, as Dr. Johnson observed, it came to be regarded as her sole occupation, and she was recognized by the appellation "spinster." Yet for the last sixty or seventy years all spinning-wheels have been silent. I well remember a lumber-room in my grandfather's house when I was a child I used to peep and see more than a dozen old women, some were pretty much with mother-of-pearl beads all of them were overladen with other wheels made by spiders, and thickly covered with layers of white dust. My poor grandmother used to look very odd when I asked about those spinning-wheels; they were hers, and her mother's, and her grandmother's, and so on. I do not see why she should be so surprised, for I have seen many of them in my own day, but I have never seen one since I was a child. I was once in a spinning-room in my grandfather's house, and I saw a woman who was spinning, and I saw her spin. Three kinds of shoes.
 Nothing can be so important to a young girl as her shoes. In a few minutes I will tell you of three different kinds of shoes that are being worn in the city. They are called, giving play to the muscles, and which in adult years, the worst of shoes, and which in childhood, the best. BRUMMIT, AGAIN!
 It is about a year now since I wrote an advertisement. Not because I have nothing to say, but because I am vain enough to think that the citizens of this county know that so long as I am in business I shall always make the BEST PHOTOGRAPHS for as low prices as they can be made for properly; and just here I want to tell you something. I attended the Photographic Convention at Cincinnati in August, and had the opportunity of seeing the best collection of Photographs ever brought together in the world, and I am proud to say that my own pictures compare favorably with the very best made and are equal to pictures made in large cities for from \$50 to \$100 each. I wish particularly to call attention to my "Landscape" pictures. I have a method of making life-size pictures which does not appear to be known generally, and I can make a picture life size and put a handsome frame around it for \$15, which is a great deal less than it will cost in any other city.
