TIMELY TOPICS
In San Francisco a man drawn as a trial juror failed to appear and was pronounced in contempt of court.

W. F. Conant, an inmate of the Concord, N. H., asylum, was made violent when it is believed he recognized his name as deserted from the army in the war.

It is generally supposed that the day of the great earthquake in California is past, but a case is reported from Montreal of a man who was arrested, tried and fined, because, forsooth, he only knelt once when kneeling in church.

Mr. Stevens' article, 'The Twilight of the Poets,' in the September Century, is to be the closing one of his series. It commemorates most of the poets who have lived since the middle and younger generations do not, as it has been erroneously stated, attempt to weigh and measure them.

The people of this state may have to combat small-pox before the cholera arrives. The disease is raging in Montreal and also in other parts of Canada. Daily hundreds of emigrants pass through these cities and enter the state at Detroit and Port Huron.

A New York doctor says that even if placed upon the head for sunstroke should be put on the forehead or on the back of the head, not on the back of the head or neck.

It is believed that there is a cholera epidemic in the city of Montreal. The report will determine the blood from the lake. Although the hot summer weather seems to be over, there is frequently hot weather in the latter part of the season.

Six John McDONALD, premier of Canada, is in about such a predicament as is described in the following expressive, if not elegantly written, couplet:
You will and you won't,
You will and you won't,
You will and you won't,
You will and you won't.

The Lancet says that the pain of menorrhagia is generally located in one or more branches of the second cervical nerve, very commonly those term-named in the scalp at the occiput. The fact that the occipital nerves are the nerves which bring down tightly back, and put on the strain, not as a whole, in which case the strain would be spread over the whole of the neck, but by small bundles of air, which are pulled back and held in place by hairpins. Relief is often consciously experienced as a result of removing the hairpins, but this is a temporary relief, and a partial effect. The injury done is lasting in its consequences. The present style of dressing hair should be discontinued, as a substitute in part, accounts for the excessive prevalence of menorrhagic headache.

UNDER THE PROVISIONS of the existing law Indians in Indian Territory can neither lease nor sell their land, and are prohibited from leasing to any other person. It is believed that the law will require a long time to incubate. As it will require a long time to incubate, it will require a long time to incubate.

Three weeks ago a young woman came to the office of the Birmingham Eccentric, and was staying for some time. The engaged couple were in the city of Birmingham, and she was staying for some time. The engaged couple were in the city of Birmingham, and she was staying for some time.
