NOTICE. All persons indebted to me are hereby requested to call and settle at once as I shall leave all unsettled accounts with a justice of the peace for collection on August 10th.

Under the auspices of the ladies of the Presbyterial church there will be a "reading match" and social at the residence of Dr. Rylands on next Friday evening.

On Monday last a farm laborer named Christopher Schwartz was standing on a scaffold over the floor in the barn of John H. Hacking, the township of West Bloomfield, pitching wheat up into the loft, when the scaffold came crashing down upon the wagon with such force as to drive the wheels of the wagon through the floor of the barn.

Under the heading of West Bloomfield correspondence I saw a portion devoted to the dog poisoning, not over-cautious terms, but why in so insinuating and guarded terms? The undersigned, who is the real dog poisoner, does not wish to deny poisoning a dog belonging to Hacking, John H. of the cognomen of "Dog poisoner" is to be the name to distinguish him, but so be it.

Why such insinuating, unctuous and almost libelous language should be published in two or three different papers I cannot imagine, unless it was done for sympathy, but very little of that will be suggested after the McChesney affair.

When going for a load of grain, the wagon became uncoupled letting Terry Dunn fall, bruising him considerably. Tom Nixley from far away Hailo, is home on a horse.
