An Englishman recently bought a farm in Vermont, largely on the assur-ance of the owner that the soil was strong. When he examined the farm he found that it consisted almost en-

strong. When he examined the same he found that it consisted almost entirely of meks and hard clay. On being charged with false representations seller eating repited that he seller eating repited that he seller extends it has been seller eating repited that he seller it, let him try to run a pluogh through it. The Pope is extremely economical and thrifty. A Rome paper says that the cost of his dinner is a secude (80 cents). He takes with it half a glass of claret, which he has so far ordered from a Roman wine dealer, but even this expense is to be curtailed, as he last year planted grapes in his Vatical, as a related to the control of the seller promise an abundant yield for the needs of his table.
