ied d the headland light; d it meaned, the wind it wailed, ack, black fell the night.

## We have the best Fertilizer Drills made. LINK BY LINK.

You have run a mover perchance since boyhood, but you never rode one of so light draft, so easy to manage, and such a powerful cutter as this No. 4 Steel Mower. Do I know what I am talking about! I do. The dynamometer power proves our superiority for light draft. It takes but a moment to grasp the lever and raise the bar. How easy it is done. Its long pitman gives it a powerful stroke and the gnards are cleared without backing the machine!

It is tested in the shop. It is built upon honor. It will save you grass. Your boy can handle and your horses can easily draw the McCOIMHCK No. 4 MOWER. It is the best Mower for the money ever built, and don't you forget it!

Every farmer should compare the Mc-Cormick Harvester with all other makes that are offered for his inspection. It will repay his time. Let him examine all the little points, as well as all the big ones. Let him look at the canvas; observe the gritin wheel; notice the gearing; run his eye along the cutter bar, and examine the main wheel. It is not a cheap machine. It was not made for one. It is the cheap things that are dear in the long run. It is the better construction that gives the McCormick its added life this better construction lessens draft. Let the tarmer remember his horses. If he does not forget his team he will buy the McCormick.

s Double Lock Reversible Hay Carrier.
