WE ARE!

This is the way SAM gets first-class Farm Machinery. Every Farmer should have a Planet, Jr., Cultivator. They are the best in the world.

Keep the Fire Thriving. From the start they need to be fed with judgment, and not with covetousness.

Many cows have the habit of beginning to void liquid or solid excrement with the first attempt to milk.

It is certain that in many cases the bad quality of butter and especially its tendency to become rancid, is due directly to impurities in the milk.

It is a mistake to say that there is no need of manuring hay land; just you may get a crop of hay out of it.

Every farmer should compare the McCormick Harvester with all other makes that are offered for his inspection.

It is not certain that coarse grain cannot be produced so cheaply and so profitably as the fine-grained crops.

The Myers Double Hour Reversible Hay Carrier. The Myers Double Hour Reversible Hay Carrier.

Modern Statesmanship. Rural Statesmanship. The Myers Double Hour Reversible Hay Carrier.

ALL GOODS WARRANTED
