Let him examine all the little points, as well as all the big ones. Let him look at the canvas; observe the grain wheel; notice the gearing; run his eye along the cutter bar, and examine the main wheel. It is not a cheap machine. It was not made for one. It is the cheap things that are dear in the long run, It is the better construction that gives the McCormick its added life. This better construction lessens draft, Let the farmer remember his horses. If he does not forget his team he will buy the McCormick.
