ROLL OF HONOR.

Mr. Thomas Langley's proposition for the great improvement of our village is meeting with a generous response and no doubt a fund of $100 and more will be secured by it. Before we publish those who have subscribed, and all interested in the growth, welfare and improvement of our village are invited to come and be with us. Will you?

BIRMINGHAM, Mich., February 16, 1891.

We the undersigned, promise to pay at the Exchange Bank, in the village of Birmingham, Mich., the sum of five dollars each on or before the tenth day of April, 1891. This fund to be expended for village improvements in said village under the direction of a committee chosen by the subscribers to this fund. This agreement to be binding and void unless twenty or more persons subscribe to the fund, and in such case all money paid in shall be refunded.

Here is the latter received from Capt. Stevens, and we will say right here, that if all of our citizens who ought to be interested in the welfare of our village, would do as well as the Captain, who isn't interested at all, we would make the town a miracle of neatness and progress:

DETROIT, Mich., March 3, 1891.

Your favor 27 ult. at hand. Inclosed find check for $5.00 to apply to your commendable enterprise. To ornament and beautify, is to make cheerful and happy and harmonize the human family. Respectfully,

W. H. STEVENS.

Now that the twenty names or more have been signed we do not expect to see the good work stop here. If you have not signed the paper yet, and are sorry, (and if you ain't, you ought to be), you can still have a chance, for the list will not be closed for some time yet, and we would like to say to the farmers who come to town about every day or two, that there would be no class more directly benefitted by a good fountain where they can water their horses and get a good, cool drink themselves, than these very farmers, who have never been at all backward when they want a subscription to grade some of the roads leading to the village, in asking our merchants to come down with the cash, and they will all tell you that the merchants have never refused to respond. Of course we do not say that the fund will be used for the construction of a fountain, but the general impression seems to be in that direction, and we cannot see what more beneficial project can be entertained, as it would advertise the benefits to be derived from our water works to every passer-by, especially

Two Papers a Week for a Dollar a Year

The "Twice-a-week" Edition of The St. Louis Republic is at once the best and the cheapest news journal in the world. It is a big seven column paper, containing six to eight pages each issue, or 12 to 16 every week, and is mailed every Tuesday and Friday. Its readers get the news of the day almost as promptly and fully as the reader of a Daily and a half a week a-head of any Weekly in every State in the Union. Yet the price is ONLY ONE DOLLAR A YEAR. Special Missouri, Illinois and Texas Editions are printed, and a General Edition for other States contains nothing but details of important events of interest everywhere. The Republic is the leading Democratic paper of the country, aggressive, but at the same time liberal, and the only thoroughly national journal in the whole country. Remember the price is ONLY ONE DOLLAR A YEAR. Sample copies, also an illustrated Premium Catalogue, sent free on application. Address The Republic, St. Louis, Mo. 2

AN INTERESTING LETTER.

A Resident of Birmingham Tells What He Saw in Washington and Vicinity.

WASHINGTON, D. C., Feb. 25, 1891.

Editors of the Enterprise.

For the last few weeks spent in the Capital City of our great and glorious nation I have spent the most of my time in visiting points of interest in and about the city.

First to attract one's attention is the magnificence and grandeur of the Capitol building, standing upon a hill like ancient Rome. The structure consists of a main building and two wings connected by corridors, upon which has been expended over $50,000,000. The Capitol is 751 feet, 4 inches long, with a depth of 324 feet, including the steps of the extension. The main or central building is built of freestone, painted to conform to the general appearance of the wings, which are white marble.

Its works of art and interior decorations have cost millions of dollars. It requires the expenditure in the aggregate about $100,000 for the compensation of engineers, firemen, laborers and other employees for caring for the Capitol. The special police, costing about $36,000 per year alone. The Capitol covers an area of 654 feet (more than three and one-half acres), and the grounds around are acres. The rotunda is 97 feet in diameter by 300 feet in circumference, with a central height of 180 feet and 4 inches. The dome of the Capitol has a total height above low tide on the Potomac of 287 feet. The diameter is 135 feet 5 inches. The apex is surmounted with lantern 45 feet in diameter and 50 feet high, crowned by a bronze statute of Freedom, and cost $25,000.

The Washington monument corner stone was laid July 4, 1848, was finished in 1884, and dedicated February 22, 1885. Its shaft is 555 feet high, 55 feet above natural surface. Interior lining has many blocks of stone presented by the States, cities, foreign countries and societies, among which is a block of native copper with the State arms and these words, "The Emblem of the Trust in the Union," engraved thereon, with the word "Michigan" in the centre. There is an elevator, also stairways for the modern, with the exception of Eiffel Tower in Paris, it is the loftiest in the world. At once many feet above the Capitol, from which the view is sublime. The view extends to the Chesapeake Bay and to the Alleghany Mountains.

The National Botanical Garden is on a reservation known as the Mall. Under glass can be found the rarest plants from all parts of the world. Visitors among the garden water and summer, and it is regarded as one of the attractions of Washington.

The Executive Mansion or White House is a building 170 feet long, 87½ feet long and 58 feet wide. It is in the centre of a large park, tastefully laid out with flower beds, trees and shrubbery, and well kept down.

The State, War, and Navy department is a magnificent building and has many Bureaus, the Bureau of Indexes, Bureau of Accounts, Bureau of Statistics and many others.

The Army and Medical Museum has a large collection of everything that pertains to medical science.

There is many other places of interest that I will mention. The Bureau of Engraving and Printing, where our paper money is made. The male employees get $10 per diem, the ladies $7. If the all get rejects. The Patent Office, filled with thousands of models. The Pension Office is a large structure and covers nearly two acres, and cost $700,000. The U. S. Treasury cost $1,700,000. The Department of Agriculture distribute 1,200,000 packages of seeds and 25,000 bulbs, vines and settings annually. It also has a green house, with tropical plants and fruits, also orange and lemon trees in bearing, bananas, pine apple, etc. The Government Printing Office is a very large building and is the largest of its kind in the world. The Smithsonian Institute is a gem of the United States. The building extends 447 feet, the entire long 500,000 feet and there are two wings. Scientific investigations costing $70,000 yearly are conducted here in the best manner to be procured. In 1879 an annex to the Smithsonian Institute was erected, termed the Natural Museum, and in each quarters exhibition halls, 154 rooms in all. The Museum is the depository of geological and mineral collections and some of the most attractive museums in the world. It would require weeks of patient time and investigation to properly examine the variety of curiosities in it has thousands of articles of value, one valued at $800,000, another $500,000, and others of less value, and priceless and beautiful of great value. In fact you may say everything that you can think of or imagine, it will appear among the rare collections to see in the museum. The Corcoran Art Gallery has a frontage of 100 feet and a depth of 125 feet. It contains the statues of Powhatan, Raphael, Michael Angelo, Titian, Tintoretto, Rhubens and Rembrandt. Albert Bierstadt's Also portraying sculpture, painting, architecture and engraving. All the collections are specimens of the highest paintings and sculpture. The income yearly for the galleries is about $80,000, which is expended in the purchase of pictures and statutes. It is open free of charge Tuesdays, Thursdays and Saturdays. Other days, 25 cents is charged. The U. S. Fish Commission leads the world in fish culture. The object was to find ways and means for the propagation of food fish in the continental waters. 500,000 fish are distributed annually.

The military cemetery adjoining the Soldiers' Home, has 5,152 Union and 271 Confederate dead. The Arlington Military Cemetery contains 11,931 Union soldiers dead. This property was presented by Martha Curtis Washington, wife of Gen. Washington, of Mount Vernon, the home of Washington, is situated 16 miles from Washington on the eastern bank of the Potomac. Numerous relics of Washington will be found in the building, which is on a hill about 125 feet above the Potomac, being a beautiful place.

There is still interesting places in and outside of Washington not mentioned. It would make a large book to go into detail of the various interesting sights to be seen. The Catholic University, the Soldiers' Home, the Dead and Dumb Institute, the College for Colored People, the many beautiful parks filled with the statutes of noted Generals and prominent Statesmen. To be appreciated it should be seen, which will pay for the money and time spent. GEORGE BLAKESLEE.

MERIT WINS.

We desire to say to our citizens, that for years we have been selling Dr. King's New Discovery for Consumption, Dr. King's New Life Pills, Bucklen's Arnica Salve and Electric Bitters, and have never handled remedies that sell as well or that have given such universal satisfaction. We do not hesitate to guarantee them every time, and we stand ready to refund the purchase price, if satisfactory results do not follow their use. These remedies have won their great popularity purely on their merits. Whitehead & Mitchell Druggists.

FRANKLIN FLUTTERINGS.

Dick Millard of Wing Lake buried an infant child on Thursday last.

George Pickering is marketing his crop of barley in Detroit and securing a good price.

Mr. and Mrs. Carl Tibbits are happy over the arrival of a young son.

Mike Bush has moved into one of the tenement houses on the Watkins farm when he will have employment during the coming year.

Mrs. Effie Mitts who has been visiting her parents, Mr. and Mrs. Midgley, returned to her home at Stockbridge the first of the week.

Mrs. Hattie Horn who has been gladly welcomed by a large circle of friends returns to her home at Tiffin, Ohio, the latter part of this week.

The family and neighbors of Gus Mudge made a bee one day last week and drew up his stove wood for the coming year.

The most exciting event during the past week has been the lawsuit between Frank Evans and Dick Millard. The defendant, (Millard), settled for $25 and costs.

OBITUARY

The following obituary from The Stevens Point (Wis) Gazette tells of the death of one of their respected citizens. We are unable to give the item at length but select the following:

William Walton was born at Rochester, N. Y., March 30th, 1824, and in 1832 his parents removed to Pontiac, Mich., where he lived until 1842, and then went to Chicago and remained a couple of years. For a year thereafter he was located at Johnston, Rock county, this state, and on the 10th of May, 1845, arrived at what is now the city of Stevens Point. At that time there was but one rough board shanty here, and for several years thereafter he worked by the month in the woods making shingles. Afterwards and until 1851 he was engaged in the mercantile business, and thereafter became engaged in lumbering.

Wm. Walton was a most excellent citizen; one who always endeavored to do right, and no man can say aught against his honesty. He was careful in his dealings and reserved in his manners, but those went to him in distress never went away empty-handed. Although of a quiet, retiring disposition, he was never-theless warm hearted and social at all times with those whom he knew intimately, and ever had a kind greeting for his friends. Everyone of the hundreds in this city and county whom he has befriended in one way or another in the past, will long revere his memory. His home life was ever pleasant, and it was adored with his wife, and friends or relatives, that he always spent his evenings, rarely ever going out after supper, and to her who is left in sadness, the sympathy of the community goes out.

The funeral took place on Saturday afternoon at two o'clock from his late residence on Church street, Rev. R. H. Weller officiating. Relatives present from abroad were his elder brother of the deceased, Henry T. Pollard, and niece, Mrs. Jennie E. Pace, of Lexington, Mich., and Mr. and Mrs. Edward Heiner, of Marshfield. The honorary pall bearers were J. A. Slothower, Benjamin Burr, A. G. Hamacker, J. A. Walker, W. H. Gilchrist, Alexander Krembs and J. J. Prentice and John Hawn, while the active pall bearers were F. B. Turnorous, E. C. Kingsbury, T. J. Simons, C. P. Mason, B. B. Park and H. H. Grant. The funeral was largely attended, and interment took place in the Episcopal cemetery.

A SAFE INVESTMENT.

Is one which is guaranteed to bring you satisfactory results, or in case of failure a return of purchase price. On this safe plan you can buy from our advertised druggist a bottle of Dr. King's New Discovery for consumption. It is guaranteed to bring relief in every case, when used for any affection of the throat, lungs or chest, such as consumption, inflammation of the lungs, bronchitis, asthma, whooping cough, croup, &c., etc. It is pleasant and agreeable to taste, perfectly safe and can always be depended upon.
