OUR BEST PEOPLE. If you cannot tell who the cut below is to represent we will tell you in confidence that it is our best and highly respected citizen.

(MORSE K. TABER) who has resided more than 30 years within a radius of five miles from his place and has for the past 12 years lived in his village and we can truly say that he has the future of our village, growth, and progress of our village at heart, always willing and ready to give aid and encouragement in a liberal manner any step that tends to improve and beautify our little village of Birmingham, Michigan.

Mr. Taber is a farmer by occupation and says if he had his life to live over again he would accept of no other business but to tend and dig in dirt, although he gives us a contented mind, which is a contented heart. Mr. Taber divides his time spending his home here in the village and spending his time in his own home and his surroundings and thereby encouraged others who have done likewise thus directly and indirectly established a reputation for our village that is known far and wide for its beauty and prosperity.

There are those who say it was domestic infidelity and others that it was "Jig" that caused Jim Frost to leave the sacred precincts of his heart and go to attend a concert when he was the best at home at the extremely low price of ten cents. What the effect was the effect was wonderful, in that he got just what he was looking for and lots of it. There was trouble for Jim all over town, more particularly as he stirred it up himself. Finally he called William Hilliard some names which reflected upon the credit of the Hilliard family in general and followed up the reflection with the solemn assertion that the time had arrived when William Hilliard should be thoroughly licked and he appointed himself the committee of one to do it. The face of the aforesaid Mr. Frost bore a close resemblance to a two shilling egg.
