THE REPUBLICANS IN

ELECTION IN SEVERAL STATES FULL OF INTEREST.

The First District of Michigan and the Detroit Municipal Fight.—New York, Massachusetts, Ohio, Iowa, Virginia, New Jersey, Kansas and Other States.

The First Congressional District.

The district which sent the late and lamented Hon. J. Logan Chipman to Congress for several terms had long been conceded to the Democrats. Nevertheless when death took away the man who had served so long and so well the Republicans took fresh courage, worked with might and main to wrest the First district from their opponents. They named James H. Stoms, for years internal revenue collector, to make the race and right royally did they support him. The Democrats were equally determined to retain their hold and selected as their leader Levi T. Griffin, a prominent lawyer and a strong candidate. The fight was a hot one and the victor deserved his laurels.

The complete returns from every voting precinct gave Griffin, Democrat a plu rality of 1,187. The Republicans although defeated were satisfied to know that the usual plurality of from 5,000 to 15,000 had been cut so deeply.

Detroit Municipal Affairs.

Hon. H. G. Pingree, twice elected mayor of the state's metropolis again aspired to the chair. His methods of conducting the affairs of the municipality won him many enemies in his own party and on the other hand had brought to his standard many Democrats. Thus with party lines partially eliminated the fight became one of men and not party, of principles and not politics. The Democratic leaders headed their city ticket with Marshal H. Godfrey, a sterling business man with friends on both sides and the campaign became the most torrid Detroit ever experienced. There was considerable mudslinging on both sides and the interest was kept up at fever heat until the last moment.

But when the returns were in there was rejoicing in the Republican camp. Mayor Pingree was re-elected (third term) by his old time rousing plurality of 5,777 and not only that but the entire city ticket was Republican. Splendid fights were shown for two or three of the minor offices by the Democrats, but it was a landside, and the pluralities were as follows: Mayor Pingree, 5,744; City Clerk Forster, 4,188; City Attorney, Rasch 3,522; City Treasurer, Littlefield, 4,958; Judge of the Recorder's Court Chipman, 5,061; Police Justice Sellers, 1,726; Justice of the Piace Shindel, 2,540.

THE BATTLE ELSEWHERE.

Although an "Off" Year a Great Deal of Interest was Shown in Ohio.

McKinley is all right. Such is the verdict of the people of the Buckeye state. The plurality is about 60,000. The battle was strictly upon national issues and the campaign was the hottest the state had experienced since the civil war. The leading Democrats attribute their defeat to the reaction set in over the recent doings of congress. There was a vote cast in this election in every voter in both parties turning out. Not only was McKinley reelected governor, but at the very least two-thirds of both branches of the state legislature are now Republican, and all the state offices as well as many county officers were carried at the day along with the "man of destiny."

The Empire State.

It was a general surprise. It was one of the most peculiar campaigns in the history of the state and it is safe to say that the Democrat managers are not more surprised at the result than are the Republicans. The dominant issue in all portions of the state has been ring rule and the Republicans in New York city, Brooklyn, Albany and Buffalo have been greatly assisted by the organized efforts of independent Democrats. Isaac H. Maynard, the candidate on the Democratic ticket for judge of the court of appeals, against whom the independent Democrats waged war most bitterly and unrelenting, has been surprisingly and overwhelmingly defeated. In New York City he ran 15,000 behind his ticket. In Brooklyn over 18,000 and in Erie county several thousand. Almost without exception the returns from every part of the state show that he is badly scratched and the total plurality against Maynard is close on to 100,000. The entire state Republican ticket goes in. In New York City the Tammany ticket received majorities of about 50,000. Broadly it was changed from Democratic hands to Republican by about 10,000.

Big Republican Gains in Chicago.

The election seems to be about a stand-off. The returns indicate that the Republicans elected the entire judicial ticket and the Democrats secured the county commissioners inside the city. The great fight has been over the election of Judge Gary, Republican, who presided at the trial of the anarchists. At the time Gov. Altgeld pardoned the anarchists he made a severe attack upon Gary, and the fight has been one of Gary against the state machine, with the result that Gary seems not only to have polled the full Republican strength, but to have drawn on the Democratic vote as well. In almost every precinct in the city and county he was from 5 to 10 per cent ahead of the balance of the ticket. The general result shows decisive Republican gains over the presidential election of a year ago.

Jerry Simpson and Kansas.

The Australian ballot system was used in Kansas for the first time and though there was some friction in localities, where the law was not thoroughly understood, on the whole the election passed off smoothly. The vote this year for various reasons is not nearly so large as in 1892. First reports, very meagre as they are, give the Populists a substantial gain.

Kentucky.

Returns from almost every point show Democratic gains and an increase in the Democratic majority in the state legislature.

Colorado.

County officers only were elected. In Arapahoe county there were 11 tickets in the field. Populists ticket suffered considerable loss.

Nebraska

Omaha's next mayor is a Republican by about 2,500 plurality. In the state the Populists gained while the Republicans lost ground.

South Dakota.

Very slow returns, but it did not take long to determine that the Republicans carried the day. Small vote polled.

Six People and Several Horses Killed.

Six men killed, others supposed to be dead under the ruins, a dozen badly injured, several horses dead and property damaged to the extent of about $10,000 is the result of the disastrous havoc wrought by the explosion of a boiler in the stables of the dry dock, East Broadway and Battery street railway on East Fourteenth street, New York City. The greatest part of the exploded boiler flew out of the building across the street and crashed through the wall of a tenement. The house was demolished. A horse that was standing in the street was struck and instantly killed.

Massachusetts.

For the first time in three years the Bay state will have a Republican governor, and his plurality is 30,000 at the least. The whole ticket is elected with him and the legislature is solidly Republican in both branches. Candid Democrats had conceded the defeat of Gov. John F. Russell, their candidate for governor, by a small majority, while even the most sanguine Republicans would not claim over 15,000 for Greenhalge. The astonishing result is attributed to the present industrial depression, although the fact that Massachusetts is nominally a Republican state. The Republicans are so jubilant that they care very little about the cause. Every significant report was that from Greenfield, the birthplace of Hon. John F. Russell, the Democratic candidate, where from a Democratic plurality of 12 last years Greenhalge got a plurality of 132.

New Jersey Riots.

All was not peaceful in New Jersey. In fact at Camden there were serious fracases and about 500 deputy sheriffs and 500 special police were sworn in; the state troops were kept in the armory in case of an emergency, many people were badly injured. Three men were shot in the head, one man and one woman had their throats cut and another man was badly cut in the abdomen. Camden was in the hands of a gang of thugs and roughs. Many deputy sheriff were stopped on the streets and had their weapons taken from them. The outrages were slow in coming in and for time it looked bright for both parties, but the fight against the racetracks and gambling threw the balance on the Republican side.

Holes Turned Down in Iowa.

Election was quiet in Iowa notwithstanding that the battle was a fierce one. Democrats were positive of their ability to return Gov. Boies to the chief executive's chair for another term. Republicans were equally positive that Jackson could be elected, and they were right. The Democrats name the governor by about 25,000 plurality. The legislature will also be strongly Republican.

Pennsylvania.

Philadelphia elects solid Republicans, as did Pittsburg and other prominent cities. There were only some minor state offices to be filled, but the Republicans grobbled the whole business.

Virginia.

The Democratic state ticket was elected by a large majority, and they will have more than two-thirds majority in the legislature. Many Negroes voted the Democratic ticket.

25 SAILORS DROWNED

Propellers Philadelphia and Albany Collide in a Fog and Soon Sink.

The propeller Albany, of the Western Transit Co., loaded with grain, and the propeller Philadelphia, of the Anchor line, loaded with coal and general merchandise, collided off Point Aux Barques, Lake Huron, in a dense fog and sank in 200 feet of water. The captains of both boats, with 20 men, got ashore.

The Philadelphia struck the Albany head on, forward of No. 2 engine. All hands got on the Philadelphia, which towed the Albany half an hour, when the latter sank. The Philadelphia went down 30 minutes after. The crews left in two boats. The yawl containing 12 men of the two crews left the capsized, and all were lost. Eleven bodies have been found by the life savers and are at Point Aux Barques.

The Albany left Chicago for Buffalo and had on board 250 barrels of flour, 70,000 bushels of corn and 75,000 bushels of oats; the cargo was probably heavily insured, but the boat was not. The Philadelphia was bound from Buffalo to Duluth and was loaded with coal and a miscellaneous cargo; both cargo and boat insured.

The Albany was one of the first steel steamers built in Wyandotte. She was of 1,302 tons burden, was valued at $150,000, belonged to the Western Transportation company line and was put out in 1894. The Philadelphia was one of the old time iron steamboats, and up to the advent of the big steel freighters was a first-class money maker. She was of 1,463 tons, built in 1867 at Buffalo by David Bell and was valued at $80,000. She was the property of the Anchor line.

Dastardly Deed of Tramps.

While L. W. Stratton, an employe of the T. & S. M., was putting a switch light near Gale station, on the Port Huron division, two men assaulted him, one striking him with a lantern and striking him a terrific blow on the head, while the other slashed him on the forehead with a knife. They tried to get the keys of the switch, but were frightened away. Then they fled to the station, where after fixing the lantern so a red light would show, they vainly endeavored to turn the switch to wreck the first train, but were not successful.

Eighteen Lives Lost in a Boat Fire.

By the burning of the steamer Frazer on Lake Nipissing 18 persons lost their lives. The disaster occurred near Goose Island and in spite of the most strenuous efforts to save life the above number perished. Lake Nipissing is situated northeast of Lake Huron in Ontario, nearly midway between it and the Ottawa river. The steamer was in regular service on the lake.

Cincinnati Artist Suicides.

Louis C. Lutz, one of the most prominent artists of Cincinnati, O., was found dying in his room from the effects of morphine taken with suicidal intent. He was ill from the effects of a fall and had become despondent, although his future was very bright he having won an envied name. He was past help when discovered by his finances, Mrs. M. C. McNamara.

Aged, Well-Known Lady Killed.

Mrs. J. L. Lowe, of Parma, was struck by a Michigan Central train and instantly killed. The accident occurred at a crossing one mile east of the village. Mrs. Lowe was 80 years of age and mother of well-known citizens of that county.

Capt. John Robertson, inspector of hulls for the district of Huron, has been notified that he will soon be superseded by a Democrat. Capt. Frank Danger, of Port Huron, and a well-known and popular lake captain, will be his successor.

A water-drinking contest was recently held in Paris. The winner swallowed twelve quarts, the second ten and the third seven.

The terror of the Mississippi penitentiary during the past four years is, according to report, anything but a good one. From figures it appears that during that period 110 convicts died and 137 escaped.

Cinderella's real name, it is alleged, was Rhodope. She is believed to have been a beautiful Egyptian maiden who lived 670 years before the common era and during the reign of Psammeticus, one of the twelve kings of Egypt.

New York special: Information has been received from Matanzas that the Ward line steamer City of Alexandria has been burned at sea and lives were lost. The City of Alexandria left New York Oct. 23. She had discharged her cargo at Cuban ports and was returning from Matanzas for Havana to load for New York.

The City of Alexandria was built in 1879 by John Roach & Son, of Chester, Pa. The fire occurred when the ship was midway between Matanzas and Havana. The distance between the two ports is only 40 miles, so the Alexandria could not have been very far out at sea.

SELECT PERSONALS.

Lyman Abbott retires from Harvard's board of preachers after four years of useful and popular service. A great crowd heard his farewell sermon.

One of the young women who won prizes in the recent English contest for the best essays written by women on Byron, Shelley and Keats is said to be a grandniece of Ralph Waldo Emerson.

The duke of Westminster, the richest nobleman in England, is known among his intimates as "Jack Shepard," because of his resemblance, when a school boy at Eton, to Cruikshank's cartoon of the celebrated burglar and highwayman. The duke's charities are notorious for their scantiness.

One of the many stories about the late Dr. Jowett of Balliol is that a young man once observed to him as they started on a walk, "It is a fine day, sir." A half an hour after the professor broke his silence by saying, "That was a very foolish remark of yours, sir. Good morning."

A San Francisco music house has published a number of Zuni songs that Dr. Frank Cushing committed to memory while he lived with that interesting people. Some of the melodies are lullabies and lovers' warbles and others sacred religious songs which were taught Dr. Cushing while he was one of the high priests of the Zunis.

The marble gavel used by President Washington at the laying of the corner stone of the capitol a century ago is claimed to be in the possession of the Potomac lodge of Masons of Georgetown. The gavel is of fine marble, slightly yellowish and about eight inches long. The relic is now stored in the vault of a prominent Washington bank, whence it can not be removed except on the order of the lodge.

Henry Irving's voice gave symptoms of giving out while he was in San Francisco, and the result was that a surgical operation was performed on the actor's throat, during which he had formed in the nose to such an extent that both larynx and pharnyx were much irritated, was removed. The improvement in Mr. Irving's voice after the operation was very marked, and he has since expressed himself as greatly pleased with the result.

King Behanzin of Dahomey is said to be a follower of the modern fashion in his correspondence, for he has collected a gorgeous coat of arms, which embellishes all his letters. The king is said to be fabulously wealthy, and to an English correspondent he deplored the loss of 100 pots of gold stolen from him after his retreat before the French. He recently sent a cable message to England by the way of Lagos that cost £130 for its transmission.

General Charles E. Furlong, who was on General Grant's staff, when in Saratoga met Mrs. U. S. Grant and Mrs. Nellie Grant Sartoris and accompanied them to Mount McGregor to the cottage where General Grant died. General Furlong says that young Algernon Sartoris, the 15-year-old son of Mrs. Nellie Sartoris, is intensely American. He was asked by the general what he would like to hear the band in Saratoga play "God Save the Queen." "No, I prefer 'The Star Spangled Banner,'" he replied.

UNUSUAL HAPPENINGS.

A Pittsburg wedding was postponed recently on account of the groom's new wooden leg not fitting.

Being unable to collect a town debt, a firm of contractors at Williams Bridge, N. Y., have had the sheriff seize the village safe.

A curio dealer at Amoy, China, owns a group of figures carved from gnarled tea roots, which stands nine feet high, weighs fifty-nine pounds and is valued at $120.

Barney Barnetto, who began his Napoleonic career in finance by keeping a second-hand clothing shop in London, is named as the richest man in South Africa. His wealth is given in fabulous figures.

A traveler in the Malay peninsula says that the natives have in use the smallest razor in the world. It is a wafer made from the viscous juice of a tree and its value is estimated to be about 1-10,000 of a penny. In that country one can get down to his last cent and still have his pockets full of coin.

An interesting case was tried by a jury at Montpelier, Vt. Charles Spaulding sued Miss Annie Donahue to recover some valuable presents he gave her when they were engaged to be married, the engagement having since been broken. The jury held that he had no claim to the presents and could not recover them.

ODD WHIMS AND CUSTOMS.

Persian newspapers are written by expert penmen and then lithographed.

In China all arrangements for a wedding are made by a go-between, who also does the courting and makes the proposal.

A couple of hundred years ago English and Scotch people, in order to secure the greatest publicity, were married in the church door.

A Seaville, N. J., woman uses a rooster instead of a alarm clock. At night, before retiring, she goes and brings the rooster indoors and places it in her bedroom on the back of a chair and at the break of day he crows lustily.

A former Delawarean, now living in Chicago, wears a necktie made of a rattlesnake's skin. He slew the reptile in Florida, just as it was about to spring from its coil and artfully slit. A taxidermist cured its skin in such a fashion that it should serve for a tie, and made up part of the rattles into a scarf pin. This the owner wears as an ornament to his remarkable tie.

FINS AND FEATHERS.

Frederick W. Ayer, a lumberman of Bangor, Me., carries off the honors again this year for success in fishing in the salmon pool. The greatest catch in one day was made by Ivory Doane, who took five salmon. The total catch for the season was eighty-seven fish, weighing in all 1145 pounds.

PRIZE ADVERTISEMENT.

Home Talent Wins. Mrs. A. L. Langley Captures the Parlor Lamp.

The committee on Award who kindly accepted the trust imposed on them by us in selecting the best advertisement did not dream, (neither did we) of the large amount of labor that was in store for them. The committee, Messrs H. A. Poppleton, Chairman, assisted by D. M. Johnston and F. Blakeslee promptly met Wednesday, Nov. 1st and waded into their work.

There was no way in which the committee could know who the authors were as all names were detached and the different advertisements were numbered from one up, so that every number was closely examined and decided upon according to its merit and without any knowledge by the committee as to who was the author and computer. Careful criticism and examination was given to every article submitted and nearly a whole afternoon was passed in examining and deciding which contribution was the best according to the proposition submitted and finally among the great number to decide from, the effort of Mrs. A. L. Langley of our village was unanimously decided upon as being the best according to the proposition set forth and to whom should be awarded the Parlor Lamp, and it has been delivered to her as the winner.

From the balance of the many, very many articles received the committee decided the following ought to receive favorable mention in the order named:

CHARLES H. HOFFMAN, Birmingham.
J. A. MILLER, Beddow.
MORTA A. BOGERT, Drayton Plains.
ELVIRA BENSON, Warren.

We use the advertisement of Mrs. A. L. Langley's in our change of advertisement in this week's paper. It will pay all to read it and our only sorrow is that we cannot afford to give a lamp to every contributor for our prize lamp.

Two new steel passenger steamers have just been built for this Upper Lake route, costing $300,000 each, and are guaranteed to be the grandest, largest, safest and fastest steamers on the lakes; speed 20 miles per hour, running time between Cleveland, Toledo and Chicago less than 50 hours. Four trips per week between Toledo, Detroit, Alpena, Mackinac, Petoskey and Chicago. Daily trips between Detroit and Cleveland; during July and August double daily service will be maintained, giving a daylight ride across Lake Erie. Daily service between Cleveland and Put-in-Bay. First-class stateroom accommodations and menu, and exceedingly low Round Trip Rates. The palatial equipment, the luxury of the appointments makes traveling on these steamers more than enjoyable. Send for illustrated pamphlet. Address A. Schantz, G. P. A., Detroit & Cleveland Steam Nav. Co., Detroit, Mich.

When Nature

Needs assistance it may be best to render it promptly, but one should remember that a few doses often prove needless only when needed. The best and most simple and gentle remedy is the Syrup of Prunes. Sold by Whitehead & Mitchell. 11

JOHN POUND - BEEHIVE,

Three doors only (2nd Store) south of Court House Between Hitchcock's and Turk Brothers, Pontiac, Michigan.

No Business Connection with any other store in Michigan.

I am just returned from New York with everything fresh and new. The leading Store in Oakland county for General Dry Goods, Dress Goods, Carpets and Cloaks. The largest stock in the city. The autumn and Winter Stocks are now at the fullest, and I returned from New York and the eastern markets two weeks since and the New Goods are all in. We invite you to inspect them. Anyfamily call solicited. No special (so-called) opening—we are always open—but we shall have two or three more special sales, and would ask our friends and the general public to watch the papers for dates and particulars as same will be mentioned in every paper in Oakland county. Keep your eye peeled for the notices and then act promptly. No mere puffs, no humbug advertising, but cold facts and the liberal truth every time. All are invited to call. Yours truly,

JOHN POUND.

John Pound believes in the diffusion of general knowledge and hence he supports all the papers in the county in the way of liberal patronage, employing and engaging spaces from time to time for them in which to set his business points and projects and such has been his custom during the uninterrupted course of 23 years past.

Caskets and Burial Cases

Together with all Trimmings. I will attend to every part of the business in a satisfactory manner. All orders for Funerals will be attended to promptly and the friends of the dead will be relieved of all care in arrangements. I shall keep a good stock of coffins, etc., always on hand.

Livery Department.

First-class Single and Double Rigs.

I have recently purchased for my Undertaking Business at considerable expense one of Taylor's Improved Cases for preserving the dead. This method keeps the ice from direct contact with the remains and does away with the old way of embalming, poisoning and mutilating the body.
