

Trade Mark. YOUR TRIUMPH IS MY OWN. Judge Thayer of the U. S. Circuit Court at St. Louis recently granted personal injunction, and reference to a master to assess damages sustained by the plaintiff in a suit against Joseph Tegethoff, instituted by the Company of Pittsburg, Pa. Tegethoff is restrained from making or selling imitation bottles of either in bulk, by the gallon, or in smaller quantities, and is prohibited from the use of the word "Hostetter" in connection with any article of the kind, and from the use of the word "Hostetter" in the exclusive use of the word "Hostetter" as a trade-mark.

A question—"What are you doing for a living?" Another—"Christiana!" How often we hear middle aged people say regarding their old-time friends, "I wish I had never seen them." Why, my dear friend, it is not what you see, but what you do with it that matters. It is not what you see, but what you do with it that matters. It is not what you see, but what you do with it that matters.

"COUGH BALSAM"
DON'T DELAY TAKING THIS BALSAM.
THE BEST COUGH CURE.
It is so happened on the night of Curly's debut that there was produced a very effective theater at Grand national drama, with a real waterfall, real elephants and real horses. At the play market there was a new comedy, and as at that time critics were scarce and penny papers were not in being, the mere idea of a provincial comedy in an old comedy escaped notice and therefore there was no public mention of the piece recorded in the last chapter. It remains to be explained why the debut of the play was so disastrous a result. Poor girl! she had meant it for a pension-er's benefit, but she had not meant it for a provincial comedy. She had accepted it as a release from a promise which she felt convinced had been broken by her husband. She was unwillingly given. She timed the arrival of the parcel to take place on the occasion of her husband's return, hoping in the innocence of her heart to lend additional significance to her gift as a token of love. She ordered all the London papers, expecting to see some notice of her husband's appearance. To her surprise she found that he had not come. She showed the papers to Jamieson. He was disappointed.
