ROYAL OAK RAZED. Last week Wednesday evening a cyclone struck our county and nothing but a visit to the devastated regions of Royal Oak and Redford will give anyone an idea of the terrible power that this cyclone possessed. The escape of Mr. Knowles, wife and child after the storm struck the house making a complete wreck of it as well as the barn, was most miraculous.

ROYAL OAK RAZED. Mr. James Rennie had eight elegant animals hanging in his woodshed and after the storm they were piled up in systematic order half a mile away from a hillside where they had chafed the storm.

Further along in a northeast direction Franklin Skinner's house, barn and sheds were blown away to a thousand dollars. Mr. Knowles loss is in dollars and cents it is difficult to estimate.

ROYAL OAK RAZED. The funeral ceremonies of the little son of Charles Howard, Edward Howard, was held at the home of John Bodine in Cottage Saturday night, August 19th, by Rev. Jesse Kilpatrick, assisted by Rev. A. Marsh, after which the remains were buried in Greenwood cemetery. The remains of the pastor were very comforting and consoling to a marked degree. Many flowers were sent in and principally among them was a large shield of white carnations with battle scene in red carnations with the letters F. C. B. in purple interstices, a fitting mark of sympathy from the brothers of the Birmingham K. of P. Lodge, No. 119.

ROYAL OAK RAZED. The following article has been handed in for publication by a gentleman who lately moved into our midst and not a member of the L. L. A. His words ought to be heeded and heeded promptly. To all property owners and citizens of Birmingham. Birmingham is taking on a new growth. It is evident that people from Detroit are looking at Birmingham as a possible suburban home. Every new house that is built, every new family which settles in Birmingham, every improvement in the village, every one of these things make each lot in the village more valuable.

ROYAL OAK RAZED. Now if the property owners and business men of this village wish to see Detroit settle here they must make the village as attractive as possible. It pays the increased value of your lots and the increase of business. The Ladies' Library Association are endeavoring to borrow money in sum of \$100.00 for the purchase of books from the citizens of Birmingham at a moderate interest. Three thousand dollars are needed. Shall it be raised and the ladies of the association thus be enabled to build a handsome hall and library building? Or do you, as property owners and citizens, prefer to see the library association build a cheap shanty rink on your best corner? A Hall the ladies must have for purpose of income that will improve your own property by helping us or not, we do not ask contributions, we ask a loan, with perfect security.

ROYAL OAK RAZED. Died at the residence of Wm. Parks of Troy, April 12, '93, John Harlow Glavin, aged 52 years, from an overdose of morphine administered by an overdone doctor. ROYAL OAK RAZED. John Towbridge was born in Truxton, Connecticut, Nov. 24, 1826, and died at his home in Detroit, Mich. April 9, 1893. His age was nearly 67 years. John Towbridge was one of the pioneers of Southfield, coming from Michigan in 1827 and returned the same season to the state of New York. Oct. 20, 1829, he was married to Mrs. Jane Mack of Carmel, N. Y. This happily married couple resided in Southfield, Oakland county, on the farm now owned by Wm. Beale known as the large farm. He built the large frame house which is occupied by Mrs. Towbridge a fine one in that early day. Soon after he erected a small store a little north of his dwelling from which the country round about the farm supplied. At a later period he lived in Southfield as well as on the farm which he sold to E. B. Hoyle from which he sold to his family in 1854 which has been his home the greater part of the remainder of his life.

ROYAL OAK RAZED. The Birmingham Better Factory can sell all the butter they can make at a good fair price and sure pay. There are no chances in their lines to take. Farmers are all sure to get their butter just as sure as the 10th of each month, just around and the money in it to the milk producer is much in profit. Try selling to the factory a while. The Improved New Goodrich is the simplest machine, having the fewest parts, all strong and with case hardened bearings. Being free from complication it is easily cared for, never gets out of order and is always ready for use. The most inexperienced can readily manage it. It has all the modern appliances and conveniences that go to make up the list of excelsions, we have never successfully combined. Yours, V. Nixon.

A FUNNY THING. \$5, \$6 and \$8. Another Funny Thing. It is that we are selling this superior Chalk for less money than the other fellows ask for their common old "Singing the Chalk" with a line of Roy's Notes in Blue and Black. Trade at \$5, \$6 and \$8.
