

# "German Syrup"

My acquaintance with Boecher's German Syrup was made about four years ago. I contracted a cough which resulted in a hoarseness and cough which disabled me from filling my duties for a number of months. After trying a physician, without obtaining relief I saw the advertisement of your remedy and obtained a bottle. I received quick and permanent help. I never hesitate to tell my experience. Rev. W. H. Haggerty, Martinsville, N. J.

"They're not all like the women," he would say to himself, "but I was watching her from the platform, half dead with grief, and she was smiling at me as if I were a stranger."

## WEDDED AND SINGLE.

A New Jersey Methodist conference has rejected a class of applicants for the ministry with the remark that they never had a class on desecrating education and with such large families.

All the courting is done by the women in the Ukraine, Russia. When a woman discovers a man she would like to marry she visits him at his home, and tries to charm him. If he does not like her she leaves her, and lives elsewhere until she meets his home.

When a settler in the Northwest territory wants to go back to Canada to be married, the Canadian Pacific sells him a matrimonial ticket at the same rate, and on presenting the return coupon and a marriage certificate he is entitled to free transport for his family.

In France a woman may become a doctor, a lawyer, a member of the board of education, and may even be decorated with the cross of the Legion of Honor; but she may not possess a legal diploma. She occupies an important place in art, business and commerce, but she cannot possess her own earnings if she is married.

At the age of 85 years lean men generally become fatter and stout men thinner. Van Arndt—What do you generally take for a supper? De Will—A champagne supper.

There are two places where it requires an effort to keep one's balance—on the ice and at the bank. Two men at Wolfenbuttel, Germany, were charged with the ownership of a fruit tree. They quarreled and a fight ensued, in which both were killed.

Near the equator and toward the poles the ocean is less salt than in other parts of the world. The water is so abundant in the equator, and to the melting of the ice in the polar regions.

Something new in home furnishings is a watch to help eggs by. It has a series of small dials, one for each egg. The dials are marked with the words "medium," "There is only one hand, and the minutes and half minutes are marked on the dial."

## Be on your Guard.

If some grocers urge another baking powder upon you in place of the "Royal," it is because of the greater profit upon it. This of itself is evidence of the superiority of the "Royal." To give greater profit the other must be a lower cost powder, and to cost less it must be made with cheaper and inferior materials, and thus, though selling for the same, give less value to the consumer.

To insure the finest cake, the most wholesome food, be sure that no substitute for Royal Baking Powder is accepted by you.

## Nothing can be substituted for the Royal Baking Powder and give as good results.
