Monday, June 12, being also cool, "friendly" with our Cox. Mrs. Homan having a good days rest and two nights sleep down into the grounds determined to make the most of the day and make the most visible. Don't understand a man to say that we were getting a careful viewing, far from it, you can't. being still unpacked, a pyramid shows the amount of gold mined in this country from 1720 to 1890 amounting to \$20,000,000. It contains many relics, curiosities and historic treasures. Vermont's building don't amount to shucks and for we want to imagine what was intended, from here we struck into old Massachusetts where state building is modeled after the old Hancock house in Boston.

This building is considered one of the most artistic of any that we have or will have. This state exhibits in transportation the building of an old colony steamer, an ancient coach and locomotive that does command attention, here 'tis but a step to New York's noble building which cost over \$1,500,000. It was slightly modified, a reproduction of the old Van Rensselaer residence and is packed full of relics and curiosities.

Status of Christopher Columbus, Henry Hudson, George Washington, etc. The governor and Flower present governor. Here can be seen Washington relic photographs of the signers of the Declaration of Independence, model of Fulton steam engine and thousands of colonial and revolutionary relics.

Next come Minnesota with a building that costs her people \$350,000. The state of Hawaii, with pale face capitol building by architect of the state described as follows: "Over the wide and rushing rivers. In this is the base of the madden."

is the object of attraction at the entrance of West Virginia. Minnesota people, hastened into Michigan's peaceful vale had as dinner from the faithful lunch box and with plenty of ice water it was duly enjoyed and a good night rest of half hour we took to our right seeing. Arkansas was next called upon and this building when completed will be the finest decorated building on grounds, internally has a fine exhibit of minerals.

This building cost \$100,000 and is an odd conceit. Kentucky received early notice, this building was not ready for guests, we noticed here the state of Florida, this building is interesting to all but our time would not let us examine all thoroughly so we hasten to Florida's building which represents an old fort, filled with the state of Florida, this building is the land of peace, plenty and prosperity. Here you can buy star fish, shells, sea weeds, wood, pampas plumes, and in this state find health, homes and happiness.
