A NOBLE FIGHT.

AN EMINENT SOUTHERN LAWYER'S LONG CONFLICT WITH DISEASE.

Twenty-five Years of Prosperity, Adversity and Suffering.—The Great Victory Won by Science Over a Stubborn Disease.

[From the Atlanta, Ga., Constitution.]

Forming one of the most noted lawyers and farmers of North Carolina stands Colonel Josiah Turner, of Hillsboro. Mr. Stagg has resided in Greenville twenty-two years. While nearly every one in Pitt county knows Mr. Stagg's history, but all do not know of his return to business again after an illness of sixteen months, and he has gone through more than he had lived. It was a case of the entire breaking down of the nervous system, which resulted in excruciating, agonizing, unendurable pain. Opiates and stimulants only injured temporarily, and all treatments failed him. Only his love for family and friends prevented suicide. He told a reporter the following interesting story:

I kept at my work as long as I could, but nature gave way at last and I succumbed to that terrible foe. My nervous system had been shattered by the stimulants and opiates I had taken, my blood had absolutely turned to water, my weight had dropped from 178 pounds to 148 and it seemed to everything but sickness. I was in sight? Why, I could not bear the gentle hand of my wife to lay on the palms with kept I water. I was simply living from day to hour. I had made my will, settled my business and waited for the last friend of life's setup.

"It was at this time that a somewhat similar case as my own was brought to my notice. This man had suffered very much as I had, his life, had been ruined of a ruined man, and yet he had been cured. Think what that little word means to me. CURED. The report stated that the work had been accomplished by a medicine known as Dr. Williams' Pink Pills for Pale People. I investigated the report thoroughly and found that it was true in detail. Then I procured some of Dr. Williams' Pink Pills and began taking them and began to get better. I began to eat and sleep. I began to feel child, sound, calm and peaceful. My appetite came back and my nerves were soothed and restored to their normal condition and I felt like a new man. But the greatest blessing was the mental improvement. I began to read and digest, to formulate new plans, to look ahead and to take up law practice, which began to come back to me as soon as my clients knew that I was again myself. After a large part of two years I rode horseback every day without fatigue.

That Dr. Williams' Pink Pills saved my life is beyond question, and I am spreading their praises far and wide."

Inquiry about the town of Greenville substantiates the above facts, and I am spreading their praises far and wide.

Dr. Williams' Pink Pills are for sale by all druggists, or may be had by mail from Dr. Williams' Medicine company, Schenectady, N. Y., for 50 cents per box, or six boxes for $2.50.

Madie—What is the trouble between Al and Kate? Ethel—Why, you see Al asked Kate to tell her just what she thought of her. Maude—Yes, Ethel—Kate told her.

Stranger—Policeman, how often do the electric cars pass this corner? Policeman—Well, if you are trying to take a nap they go by every two minutes; but if you want to go somewhere, you have to wait half an hour.

Spencer—Somebody told me that Russell Sage spent half an hour looking for a cent he dropped the other day. Ferguson—I don't believe that story, Spencer. Why not? Spencer—I don't believe he ever dropped a cent.

Mrs. Porkly—I often wonder how people manage to understand each other in France. Mrs. Gotham—How absurd! Mrs. Porkly—I don't think it absurd at all. Both my daughters speak French, and they can't understand each other.

Pains in the Back

"I had been afflicted for several years with what the doctors called Rheumatism. I suffered terribly. The pain in my back was agonizing in the extreme. Hood's Sarsaparilla and Hood's Pills cured me. Now I can go to church and attend other meetings with pleasure. I always keep Hood's Pills by me. In my whole life I never was so much sick and ailing that Hood's Sarsaparilla did me no good as service.

Mr. John Branston

Hood's Sarsaparilla. Experience teaches a dear school, but fools will learn by no other." I can't afford enough to listen to a druggist who claimed to have something superior to Hood's, and took another medicine. If I had thrown my dollar in the street I would have been a gainer." A GEORGIA paper objects to the portion of a wealthy rascal, who is serving out a term in the penitentiary at that state, on the plea of sickness. THERE is clearly something askew about the administration of New York justice. A man who "unlawfully solicited and accepted four dollars" for peaceably valuable together at $3, has been sentenced to hard labor in Sing Sing for five years. Boss McKane, who stole $565,000 from the city of Gravesend, pays a penalty therefor four-and-a-half years imprisonment.

THE loan society formed in New York city to lend money to deserving poor people at six per cent has applied to have its capital increased from $100,000 to $200,000. It has loaned $250,000, on the security of household goods and found repayments satisfactory. The business is self supporting, while it has enabled many worthy families to work through a crisis in their affairs.

IT costs very little money to subscribe for a good newspaper, yet there are people who do not read the papers, but send their money to "blind pool" swindlers and go to New York to buy green goods, and are taken in by sharpers that have been exposed again and again. No regular newspaper reader ever expects to get 150 per cent a month on money sent to him in response to the distortion of an unknown firm.

THE New York butcher has given notice that he intends to serve horse meat to his customers. Secretary Morton was called upon to prevent the sale of horse meat but he writes that he has no authority warranting the interference. He called upon the state government in the sale of horse meat. If the New York dudes want to eat horse meat as they do in Paris, why the best thing to do is to allow them to indulge in their horse steak.

THE frequency with which eminent men are stricken down by death at public functions and meetings, is only by the intense nervous strain to which they are subjected. Where such startling examples of the ill effects of excitement in connection with repletion are constantly given, is it not high time to consider the wisdom of separating them? Eloquence at the feast is not promotive of the good digestion or faultless circulation.

IT has been determined to disband all the Indian companies in the regular army except those at Fort Sill, the Indian territory. It has been found that the Indians when separated from their wives do not render good service, being discontented and ready to desert. At Fort Sill, however, there is a large Indian settlement where the wives of the soldiers can live, consequently the Indians stationed there are contented and render good service.

RUSSIA and Great Britain are to be left to settle the Armenian question between them. This was inevitable from the first. The former would, if Turkey would surrender Constantinople and the Balkan equities. Great Britain would be content with a railroad to the Persian gulf. Each would oppose the other, and, beyond making a few threats at the Turk, neither is likely to do very much for the Armenian Christians.

LET us suppose that Japan takes possession of China and establishes a strong and enlightened government. The new Japanese empire would then have a population of 400,000,000. The introduction of universal military service would give Japan an army of 40,000,000 men. China has proved that the Chinaman can be made an excellent soldier. An army of 40,000,000 Chinamen well disciplined, well armed, and led by Japanese, would be irresistible even by the combined world in arms.

STATE NEWS NOTES.

A CHAPTER OF THE DOINGS OF MICHIGANDERS.

Michigan Knights of the Grip Meet at Grand Rapids.—State Teachers' Association Meeting at Lansing.—Alcohol and a Match Nearly End a Man's Life.

"Do Boys Wat'sells De Goods, Sam."

The sixth annual meeting of the Michigan Knights of the Grip was held at Grand Rapids, with 4 large attendance. The Pythian temple was handsomely decorated with banners and bunting in honor of the visitors and the Knights of the Grip were greeted by the Uniformed Rank, which escorted them as they arrived, and committees were there to escort them to the hotels. Superintendent of the business session showed that the knights now number 1,540; a gain of 522 during the year. The relief fund, 725 paid out during the year $4,500, and expenditures, $1,000; general fund receipts, $1,850.83, and disbursements, $1,000. The banquet in Lockerby hall was attended by nearly 1,000 persons.

At the second day's session the proposed change in the the assessment from $1 to $2 was pigeon-holed. Resolutions were adopted favoring 2,000 mile interchangeable mileage books, with rates for a uniform $200 tax and permission to ride on the G. R. & I. road. Two years ago the liquor dealers failed to pass their amendments and since then the Knights have been steadily working towards securing influence enough to put them through. Frank Kirsch, the treasurer for the Grand Rapids brewing company, said: "We will ask for amendments permitting us to keep open on all holidays except legal holidays and Thanksgiving Day. We will also ask that one day's notice of business be permitted to be kept open on holidays during from 7 p. m. until 7:30 p. m. These amendments are already prepared and will be placed immediately in the hands of the Detroit delegation for presentation at the legislature."

Prizes Cannot Control C. M. B. A. Affairs.

Rt. Rev. Bishop Foley, of Detroit, has rendered a decision of importance to the C. M. B. A., which he is retained by Mr. Satolli. At the recent election of officers of Branch No. 12, of Kalamazoo, Mich., Father Gleason, of the Kalamazoo, Mich., was elected president. Rev. Frank A. O'Brien, pastor of the parish, informed Mr. Gleason that he could not accept his installation unless he did his full duty toward the church by sending his children to the parish school. Mr. Gleason appealed to the bishop and he, too, declined to sanction the election, submitting his case to the Holy See. The result is a withdrawal from the parish school because their progress was not satisfactory to him. Mr. Gleason has made arrangements for instruction both at home and in Sunday school. Bishop Foley has decided in favor of Mr. Gleason.

Escanaba's Chief of Police in Trouble.

Charges have been filed with the city clerk of Escanaba against Chief of Police Ehrard. He indirectly charged with shielding houses of ill-fame and gambling dens. He is arrested on the charge, had been preferred against them. The matter has stirred up quite a sensation, and before the investigation ends several prominent business men are liable to be mixed up in an ugly scandal. The charges were filed by Night Policeman Campbell, whose relations with the chief have been strained for some time.

His own Troubles Cause a Suicide.

Lester Baldwin, a well-to-do farmer near Baldwin, committed suicide by shooting himself in the head with a revolver. He was living on his father's farm with his father. He went to bed in a tool house near the dwelling when he committed the deed. His father, a few days before, had given him a shot and hastened to the spot, but his son was dead when he reached him. Business troubles are supposed to be the reason for self-destruction.

Saginaw Minister Arrested for Libel.

Rev. Wm. Knight was arrested in his study at the First Congregational church at Saginaw, by Sheriff Messmore, on a libel suit instituted by Mrs. B. The jewels were taken while Mrs. Ferguson was in church. That night she missed them and has been searching for them ever since without success. Several parties have been arrested on suspicion.

The people generally hardly realize the great work being done for the blind of Michigan by her public schools. Blind children are given the same advantages for education free of charge, that are given to children of sight. During the convention at Flint of the state board of corrections and charities, a most interesting exhibition of the work of pupils from the school for the blind at Lansing was given, and today pupils gave illustrations of their learning. Anyone knowing of blind child, or one so nearly blind as to be unable to learn in the public schools, could arrange with the parents or guardians to send the afflicted one to the school at Lansing. Tuition and board are free.

41 BURNED TO DEATH,

A Christmas Entertainment with an Awful Ending.

A most horrible accident occurred at Silver Lake, Lake county, Ore., at a Christmas entertainment in a church. It persons were burned to death and 16 badly injured, five of whom will die. The church had a crowded audience and hall to attend a Christmas tree festival. While the exercises were in full blast, some one climbed on a bench from which point he expected to get a better view of the proceedings. In doing so his head struck a lamp hanging from the ceiling, overturning it. The oil came in contact with the fire and everything in the room being dry and of an inflammable nature, the room was instantly in flames. The confusion was so great that the people in attempting to escape trampled each other under foot. Women and children were trampled under foot and the door was only one exit to the hall and the fire was between the majority of the crowd and the door and nearly raised leading into the flames.

NEWS OF ALL KINDS.

EVENTS OF GENERAL INTEREST AND IMPORTANCE.

United States and Spain on the Verge of a Hot Fight Over the Tariff Question.—Seven Negroes Killed in a Race War in Georgia.

Tariff War With Spain.

Washington: Interesting developments have been made known as a result of the strained relations between the United States and Spain over the tariff. The United States consul at Barcelona, Spain, has been called to Madrid to confer with the minister of state, Senor Moret, regarding the matter. The consul, Mr. Barrett, has left for Madrid, and it is understood that the object of his visit is to endeavor to secure a modification of the Spanish tariff. Secretary Greshan has also been in communication with Minister Taylor, at Madrid, for the same purpose. The first step in the controversy was taken by the United States government when it was discovered that the Spanish government was not removing from the "first column" of the Spanish tariff the 25 per cent duty on petroleum. This was in violation of the agreement between the two countries, which includes those having satisfactory treaties. The United States now puts Brazil in the "first column." Secretary Gresham has also been directing Minister Taylor, at Madrid, to notify the Spanish government that if the United States is not removed from the "first column" this country will increase the duty on Spanish products. If the action of the treasury carries out his threat, President Cleveland will issue a proclamation closing American ports to the products of Spain. The first effect of this will be to shut out the enormous shipments of rice sugar into Spain from this country, which is seven-eighths of all the raw sugar used in American refineries. The rice comes largely from Louisiana and Hawaii, but it is said that it would be impossible to make sugar in Louisiana at the present time, therefore, that the retaliation would cut refineries off from their supplies of raw sugar, which would throw their employes out of work. The ultimate effect of the warfare would be, it is said, to shut off nearly all the sugar from three cents to six cents per pound, thus making the public bear the burden.

The immediate effect of Spain's action has already proved disastrous to the American trade in flour and this trade has passed almost entirely into the hands of Canada. Under the present tariff arrangement with Spain American flour pays a duty of $4.75 per barrel, while Canada is given the benefit of the Cuban clause and pays only $1.25 per barrel. The Canadian millers have a decided advantage of 73 cents a barrel on flour and this has enabled the millers of Canada to wrest the Cuban flour trade away from the United States.

Superintendent Byrnes Rejoins.

The Lexow investigating committee, which has unearthed so much corruption in the police and municipal affairs of New York, has added another sensation to that the White United States. It was shocked Saturday afternoon by the appearance on the witness stand of Inspector Byrnes, the famous head of New York city's police force, at the conclusion of his inquisition, after one of the biggest sensations of the entire session. Byrnes had received a letter from Lexow and said that he had come to the city because he had sent for Mayor-elect Strong on this month. It was his resignation from the force which he had been a member for the last 32 years—owing to the continual conflict between the committee and himself. In his endeavors to secure absolute discipline. The department is honeycombed with grafters who have been growing for 30 years, and they could only be remedied by radical legislation. Byrnes believed he had himself were the curse of the department. Although he had done his utmost to prevent the establishment of such a state of corruption and bribery, he was unable to get it and the whole department was impregnated with it. He said that promotion had to be bought and merit was of no avail. He claimed to have been offered $25,000 for himself by Superintendent Murray, which he refused. Inspector Moulton also was one of the most popular men in the county. He lived in a part of the city where the Negroes outnumbered the whites, and the killing created a great deal of excitement. When it was known that the same gang of Negroes had sworn to kill other white men, the whites gathered together and armed themselves, and destruction began. Seven Negroes were killed by one posse of whites and four by another. By noon that day the whole county is in arms, the whites against the blacks, and a bloody race war is imminent.

LATER.—The trouble in Brooks county, Ga., is over. The Valdosta militia were ordered to Quitman by the governor. They found peace established and the citizens assured them that there would be no more trouble, and they returned to Valdosta.

Burlington, Vermont, Badly Scorched.

A fire which started in the bath shed connected with a big lumber yard owned by F. H. Booth, at Burlington, Vt., was not got under control until it had done damage estimated at $150,000, from the bath shed the flames spread to the surrounding lumber yard and about six acres was burned over. A heavy wind carried the fire to the mills owned by Booth & Co., which were burned. Twenty cars standing on the Central Vermont tracks, loaded with hay, and the passenger depot of the Central Vermont engine house were also burned. Almost 2,000,000 feet of lumber was destroyed.

12 Men Killed in a Collision.

London: A collision between the Manchester express and a goods train near Chelford, 12 persons were killed and 20 injured, 12 of whom were severely hurt. The express train was proceeding at high speed for Chelford, when the driver started a freight car down grade on a side track, which came on to the main line as the Chelford express was due. The freight car drove two carriages off the track and the next three in the express were tumbled after them.

Tonghaks Burn Korean Towns.

Yokohama: Although Japanese rule is accepted by the Koreans generally the Tonghaks are still active. They have organized in the province of Hadin, capital governor and installed one of their number in his place. Three towns in southern Korea have been burned by them. Their numbers are increasing, they getting reinforcements from the Tiger hunters.

Dentist Charged With Counterfeiting.

Toledo, O.: Dr. Dental formerly of Toledo, was brought from Canada on a charge of counterfeiting. In his office the officers found molds for casting half dollars, quarters, nickels and $5 gold pieces, and spurious coins were on his person. He practically admits his guilt, but is not believed to have had accomplices.

Dr. L. E. Jones and James Dalton, while driving from Whitehall to Montague, missed the bridge and drove into the river, drowning the horse and barely escaping themselves.

JACK FROST IN THE SOUTH.

$6,000,000 Damage to the Florida Orange Crop.—Coldest Weather Since 1835.

The cold wave which swept over the south caused a loss of fully $6,000,000 to Florida. Young orange groves from one to four years old are ruined all over the state. Trees from 10 to 20 years old killed. The winter crops of vegetables are killed outright and the shipments have been unusually large. Reports from all unanimously damaged. Reports from 61 correspondents in the orange districts of the state and more than 1,000 miles of unpicked oranges are solid globes of ice and more than 300,000 boxes of oranges in various packing houses in bulk, preparatory to picking are frozen. About 3,000,000 boxes of this year's crop were still on the trees. Reports from the interior of the state show that the cold weather has been general, and that from one end of the peninsula to the other, tobacco, cabbage, peas and all vegetables in the northern end of the state are ruined except the pineapple plantations, which are not much injured.

Tallahassee had a house in Jacksonville in which the water pipes were not frozen solid. All the shrubbery and tropical plants in the public parks and private gardens were killed and many trees blighted. The temperature was the lowest since 1835.

Birmingham, Ala.: The worst snow storm ever known in Alabama came with the blizzard. Six inches of snow fell. The suffering was very severe and much suffering among the poor is reported. Many cattle are starving in the mountain sections and scores have perished from cold
