

String Beans

To many people string beans are made of nothing more than limp, and drooping curves. Just as the milder weather comes, the string beans become limp and without their former crisp complaint of all.

The reason for this condition is found in the deficient quality of the blood. During the winter, owing to various causes, the blood becomes deficient in vitality and loses its richness and purity. Consequently, the blood does not contain enough iron as there is no longer a lack of energy. The cure will be found in Hood's Sarsaparilla, the greatest blood purifier and blood builder.

Hood's Sarsaparilla is the greatest blood purifier and blood builder. It cures those who are tired feeling because it makes pure, rich blood. It gives strength to nerves and muscles because it restores the blood. It creates an appetite, cleanses the stomach and purifies the digestive organs. It builds up the system and prepares it to meet the change to warmer weather.

Hood's Sarsaparilla is the only blood purifier that does not injure the system. It is the only true blood purifier that is pleasant to take. It is the only one that gives you a feeling of health and vigor. It is the only one that cleanses the blood of all impurities. It is the only one that gives you a feeling of health and vigor.
