

AFTER THIRTY YEARS

THE BUCKEYE STATE CONTRIBUTES THIS STORY.

How Fred Taylor, of the Gillett 1898
No. 2, V. S. No. 10,400,
Was Saved.

(From the Atlantic, Ohio, Beach) **Mr. Fred Taylor**, of the Gillett 1898 No. 2, V. S. No. 10,400, was saved from a life of suffering and death by the use of Dr. Williams' Pink Pills. Mr. Taylor, a well-known and successful business man, had been suffering from a chronic disease of the spine, which he had contracted many years ago, and which he had treated with all the best medical advice of the time. He had been confined to his bed for many months, and his health was so bad that he had given up all hope of recovery. He had been told by his doctors that he would never be able to get up, and that he would have to live in a hospital for the rest of his life. He had been so weak that he could not even get up to use the toilet, and he had been so thin that he could not even get up to eat. He had been so miserable that he had thought of nothing but death.

CHAPTER II—Continued.

There was a small hand-carried railway hanging over the door, and he saw the door was open. He was startled, and he looked out. He saw a man in a dark suit and a white shirt, and he saw a woman in a dark dress and a white apron. They were standing in the doorway, and they were looking at him. He was so weak that he could not even get up to see what they were doing. He was so afraid that he had been caught that he had not even thought of trying to get away. He was so tired that he had not even thought of trying to get up. He was so miserable that he had not even thought of trying to get up.

CHAPTER III.

BROAD-TIRE WAGONS.

There is No Reason Why They Should Not be Used.

While the subject of good roads is being agitated in every part of the country, it is interesting to find that the people are doing their best to make bad roads still worse by using narrow tires on their wagons. Heavy loads are drawn over our mud roads on these narrow-tired wagons, and the result is that the road is so bad that it is almost impossible to get through. The result is that the people are doing their best to make bad roads still worse by using narrow tires on their wagons.

THE TITLE, "DAUPHIN."

All the Crown Princes of the royal families of France were known as "Dauphins," and the name was applied to the first-born of the Bourbon family, but history explains the origin. The title of "Dauphin" was originally borne by the Counts of Flanders, and it was the title which they wore in their coat of arms.
