While you are kicking because you are restricted to only six hours use of water for lawn purposes, wouldn't it be well to remember that in many places persons in one half of the city are allowed to sprinkle in two of the morning hours and in the other half two hours in the evening.

It may be that our village council are lax in some respects, but it is better to have a lot of honest men doing their best, mistaken though it may be, than a set of men who are in an eternal row among themselves as the Holly council are, with the local paper stirring it up with all the vigor there is in it. For shame, gentlemen!

Our old friend and neighbor, Mr. Al Linabury, had a severe attack of Irritby Sunday last. It must have been a contagious disease for a visitor, Mr. Frank Horton, was also seized. Fred Harris, county clerk, last week refused to issue a marriage license to parties applying therefor. The would be bridegroom gave his age as 18 and the lady as 15. Notwithstanding the fact that she came armed with her father's consent the clerk was not granted on account of her youth. The sympathetic nature of the county clerk was deeply aroused for the couple, but—duty compelled him to refuse.—Pontiac Gazette.

The Birmingham base ball club are hustlers at work equally as well as when in a game. Last week Friday morning they cut down the trees, got them to Ewing's saw mill, sawed out the logs and before Saturday noon an elegant grand stand was erected on the ball grounds that enables all to have a seat while viewing the game. Larger crowds should attend as our boys are playing great ball now. "Strikes" is fast approaching a phenom.

The following few lines from our friend, Julian Lost, shows that with all his rushing business in heaters he will have a few hours of sport and recreation: "I had the pleasure of witnessing the 2:09 pace here to-day and the fastest mile pace ever driven in the state of Ohio, 2:07¼. There were 14 starters, and the contest was mainly starters, Mr. Walker said it was the finest bunch of horses he, or any other man, had ever started. The race was won in three straight heats by Ben D. in 2:08¼, 2:08¾ and 2:10¼." Julian S. Lost.

Pontiac restricts the users of water from the city mains just the same as we do here, but when they find anyone using it for the purpose of sprinkling hours when it is forbidden, they don't indulge in idle threats but simply shut off their supply and then the party has to go down and settle with the clerk before it is turned on again. A few such instances of this kind in this place would do more than all the threats and coaxing in the world. Try it, ye water board.

We announce with regret and sadness the sudden death of Mrs. Alexander Sills, of Royal Oak, who died a week ago Saturday suddenly at her home. Although she had been ill for some time her death was entirely unexpected. Her funeral was held from the house the following Monday, Rev. A. H. Orr officiating, after which her loved remains were left at the Royal Oak cemetery, mourned by a large circle of loving friends. We also take the sympathy of his entire acquaintance.

Birmingham has received more renown through its Village Improvement Society than in any other way. A letter has just been received from Milford asking for information. We are permitted to make the following extract from the reply given: "By all means let your Improvement Society be a woman's society; the men aiding and assisting in all ways required. Women are more economical than men and will see more things to do and better ways to do it. The average man's idea of cleaning up is to move all rubbish from one place to another and then put his hands into his pockets and gaze with admiration on the clean spot while he resolutely turns his back on the other."

Baldwin, Brooks, Ward, Whitehead, Jones and Peabody broke camp at Straits Lake last week and returned home browned and hearty well satisfied with their ten days' sojourn on the hospitable shores where such people as Okeman, Noble and Cummings make life worth living to all with whom they come in contact. Peabody carried off the honors for the largest fish and the ten pound pickerel which took the cake is now under the careful manipulation of Frank Beckman and will in time occupy the post of honor in Lyman's office. The generous treatment and kind attention of Mr. and Mrs. Okeman will always be among the happiest memories of the gang who unite in their praises whenever the subject of camping comes up.

Many of our readers will remember Prof. E. D. Walker, who, a few years ago, taught in our high school and successfully too, and who left here for a more lucrative position. He has changed round once or twice since then and in each case for the better, but we see by the report of the school board in Dubuque, Iowa, that he has gone still higher. His many friends will be pleased to read the following:

Dubuque, June —, 1895.

To the Honorable Board of Education.

GENTLEMEN: We, your committee appointed for examination of credentials and recommendation of suitable applicants for principal of the high school, after careful consideration, would recommend the election of E. D. Walker of Kalamazoo, Mich.

J. H. GREENE,
C. J. PETERSON,
PETER KIENE, JR.

Mr. Kiene moved that the report be adopted, and that Prof. Walker be elected principal of the high school for the next ensuing school year at a salary of sixteen hundred and fifty dollars ($1,650) per annum. The resolution was adopted.

LALLA ROOKH

For the big carnival performance of "Lalla Rookh" with which the Detroit Railway will inaugurate its birth and inaugurate the new and beautiful Boulevard Park at 14th avenue and the Boulevard, Detroit, every last detail of arrangements has now been made. Messrs Everett and Pack, the progressive gentlemen whose enterprise and push has made the road possible, have decided to make a series of nights each equal to some regular season. They recognize the fact that Detroit, while a city of itself, is but a part of the great state of Michigan and is largely dependent upon its suburban neighbors for its prosperity, and they desire to make Boulevard Park a state pleasure ground. For this reason one of the great nights of the entertainment will be called "Michigan Night." In characters of glowing, living fire will the great resources of the state be prideed out against the night with various colored lights. There is also a massive pyrotechnic picture of the executive of the State, Gov. John T. Rich, will be shown. The other nights which have been selected are the Detroit Railway night, when pictures of the new and handsomers of the new railway will be seen, the City of Detroit night, when the regular features of Mayor Pingree will be thrown up against the darkness, Canadian night when a tribute to the sister cities and towns across the border will be paid by an illumined likeness of Queen Victoria. During the race a horse maker will be the feature of Race Course night and on Wednesday, Aug. 7th, an enormous bicycle in motion will be the central feature of the fireworks display. It is also proposed to make a grand occasion for the Knights Templar, on which occasion it is probable that the commanders of the Detroit will give their Templar evolutions at the park and the whole series of entertainments will be set piece of the fireworks.

Those who have seen the performance of "Lalla Rookh" all claim that it is the most magnificently splendid and gorgeous spectacle the new world has ever seen, not excepting those spectacles given during the World's Fair. At that fair Pain had control of the fireworks and in which every night consisted of 40 different numbers and the fireworks program each night to be given here contains everyone of those 40 numbers in addition to the set pieces which design for each night, the set pieces, ariel acres of variegated gems produced by chemis bursting in air, lights of fire flying from place to place and returning to their own cote, golden fountains throwing high in immense columns of orange colored fire. Then he has, in the lot, a brand new feature which is said to be the best of all. Nothing is seen of this display until suddenly it bursts into sight hundreds of feet above the ground, then gently floats away into darkness. These fireworks are given in addition to the regular performance of "Lalla Rookh."

To give some idea of the scale of thoroughness with which the whole is environed it should be stated that Mons. Arthur Kiss Jeff, whose name has been for years associated with dramatic and pyrotechnic specialties, was engaged by cable to superintend the planning of the lakes and he arrived in Detroit Monday night for that purpose. The Detroit Railway cars are now running direct to the main entrance to the park and everything is in readiness for the opening night. Performances will be given July 23, 25, 27, 30, August 1, 3, 6, 7, 8 and 10.

BASE BALL.

The Cass Club Defeats Birmingham by One Run.

The patrons who witnessed last Saturday's game between the Cass club of Detroit and the home team saw the best game played here this season. It was a hard fight from start to finish and although lost by our boys, was no discredit to them. The star play was made by McStay in the eight inning when he made a leap into the air and pulled down a hard hit with the left hand retiring the side. Daniels although lame did great work in the box and King caught perfectly. Rooks had a finger broken in the sixth inning and had to retire. The loss of this valuable player at a critical point probably cost the home team the game. Hawkins was called upon to umpire, and did so well that not a single decision was disputed by either team. The following is the score:
