**DON'T
STAY
BACCO**

IT'S IMPROPER TO STAY SITTINGLY and don't let anyone tell you that that requires you to smoke, as it is nothing more than a suggestion. In the subtlest stages of a disease you must have your stimulants, and in most cases, the effect of stimulants, be it cocaine, morphine, or other opiates, leaves a far worse void behind. Ask your doctor about **BACO CUBO**. It's perfectly vegetable. You do not have to stop using tobacco with **BACO CUBO**. It will not harm you. You may want to be as free from nicotine as the day before you took your first chew or pipe, or an ironed, wrinkled shirt. You may have your tobacco habit in all its forms, or merely extended. Price 100¢ plus tax or 40¢ plus tax 2 days delivery.
