

Crowded Session. A special session of the House of Representatives was held at Toronto, Ont., on the charge of forgery. He was indicted by the grand jury for making false affidavits in position cases and for defrauding the government by the use of the mails. He was one of the oldest pensioners in the country, having been in the service for 30 years. He had been stationed in the east for years, but was transferred to Grand Rapids where he stood high.

THE TWO PENINSULAS.
Chaplain has winter street cars on runners. A New York capitalist laid of starting a glass factory at Grand Rapids to cost \$500,000.

Mr. and Mrs. John Maynard celebrated their sixtieth wedding anniversary at Amherst, Pa., a prosperous farmer near Brown City, upon returning to his home after selling a load of hog-dropped dead at a fair price.

Amos Zeckler, of Marlette township, is confined in the county jail at Sault Ste. Marie for the theft of a horse and is accused of having been in possession of the animal.

Mike Martin and Charles E. Johnson, farmers, were arrested while returning from a harvest to their camp on Fisherman's Island with a load of potatoes.

Wm. James Carver, aged 48, a trusty officer serving 18 years at Jackson for attempting to kill his wife, was sentenced to 18 months.

The Michigan Grange Association, manufacturer their own fruit packages, and will arrange for cheaper transportation.

The outfit of iron shipped from the upper peninsula by water this season is about 700,000 tons. It does not include the consumption of iron local furnaces. The production of iron in Michigan in 1905, but did not quite come up to that season. The prices for Bessemer and open hearth iron are comparative moderate during this year previous to 1905. Competition from Alabama will be slight.

The shoe store of John Jeffrey at Ithaca, was closed by the sheriff. Jeffrey had his affairs in the hands of an attorney, and had a large stock of shoes. He was a strong Cuban sympathizer and some think he has gone to Cuba with the goods.

Venezuela had Accepted the Treaty. New York: A special from Caracas says Senator Andrade, Venezuelan minister to the United States, has been recalled to Washington at once with the cabinet's approval of the Guiana boundary dispute. The Venezuelan minister is said Venezuela will withhold her consent to the arrangement entered into between Secretary Olney and Lord Salisbury for the settlement of the dispute.

Washington: The unofficial reports from Venezuela that a serious negotiation has sprung up against the boundary dispute agreed to between Secretary Olney and Lord Salisbury, and that the United States and Great Britain cannot make surprise and no little concern in official quarters. Mr. Olney had previously called the time of his leaving, also stating that President Roosevelt approved the agreement and would call an extra session of congress to ratify it. For this reason the reports are very guarded on the matter.

Senators will return at present, owing to unexpected developments growing out of the situation against the settlement of the Guiana boundary, and possibly imperil the final adjustment, which had been tentatively agreed to on Monday. The Venezuelan papers which reached Washington on the last night are very guarded on the matter, and appear to be under some government supervision as has been observed.

Sen. Weaver has returned to Havana and says that he will at once direct the Havana province of the insurgents and will send Pedro Pinar del Rio province to the north.

The North German Lloyd steamer Salier, bound from Bremen to Havana, was captured by the Cuban rebels on the rocks on the Spanish coast during a heavy gale. The ship was wrecked in a very short time, and the crew of 60 men and had nearly 500 passengers aboard. The vessel is owned by the German, Spaniards and Germans, and was mostly in the hands of the Spaniards. The vessel was carrying a large quantity of goods, which the Salier was lost, are situated in the neighborhood of Havana and should have been given.

After Acute Bronchitis CURED BY DRUGS
AYER'S Cherry Pectoral
A PREACHER'S EXPERIENCE.

"Three months ago, I took a violent cold which resulted in an attack of acute bronchitis. I was under medical treatment, and at the end of two months was no better. I found it very difficult to breathe, and I was unable to perform my duties. I then tried Ayer's Cherry Pectoral, and in a few days I was able to breathe freely, and in a few weeks I was completely cured. I can now perform my duties as usual, and I feel that I owe my recovery to Ayer's Cherry Pectoral."

A walking stick is regarded as a very "smart" addition to the English girl's attire, and is especially so when it is made of ebony with a gold knob, decorated with curls in blue enamel. It is one of the favorites.

The rather eccentric fad for wearing live insects as jewelry seems to be increasing, and the Japanese terrapin is announced as the latest victim. It is reported that the terrapin are being sent out of Japan by thousands, and the demand in Paris and New York.

It is really pleasant to meet the new military straight from Paris. In shape it is rather small, with an open trim, its trimming limited both in variety and extent, and it also contains a great deal of water, so that it is not so hot as the old-fashioned military straight. It is a very exciting one. The dress is made partly through the use of the military straight, which is coming about six inches above the military straight, which are being worn for walking. The animal is killed with a spear and his skin makes a very good material for shoes. A great French military house, which "makes" fashions, but an American house, recently, into the street, how it is done. There is nothing at all mysterious in it. The artist study old fashions, and get their inspiration therefrom, produce designs. The final result is made in the shawing and the action of the dress, in regard to their details, what is going to be the "style."

FLASHES OF FUN.
Duke—Spiffias has refused to honor that eight draft. Gwallow—Perhaps he regarded it as an over-draft of "Pittsburgh" money. Scientist—Let me see, what is the name of the instrument that records the amount of light? Johnson—A press you mean a photograph—Puck.
