## ONE OF TWO WAYS

The bindder was created for one purpose annely, a receptuled for the urine, and as such it is not liable to any form of disease except by que of two ways. The first way is from imperfect action of the kidneys. The second way is from carcless local treatment of other diseases.

Unhealthy urine from; unchealthy kidneys is the chief cause of highder, was created for one purpose, and if not declored to much is not liable to washeness or disease, except in rare cases. It is situated back of and very close to the bindder, therefore any pain, disease or inconvenience municipated in the kidneys, back, bindder or urinary passage is often, by mistake, attributed to female wasness or womb trouble of the sort.
