

THE SCHOOL PLAN
The school plan for the year 1917-18 has been adopted by the Board of Education. The plan provides for a six-year course of study, with the first three years in the primary school and the last three years in the high school. The plan also provides for a system of vocational training, with students working in various trades during their school years. The plan is designed to provide a well-rounded education for all students, and to prepare them for the challenges of the future.
